*The Honourable HENRY P. BELL-IRVING, D.S.O., O.B.E., E.D.,
Lieutenant-Governor of the Province of British Columbia.*

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present the Public Accounts of the Province of British Columbia for the fiscal year ended March 31, 1978.

For the first time the accounts of the Government have been examined by the Auditor General, who is required to report annually to the Legislative Assembly on the financial statements of the Government. Accordingly, the first annual report of the Auditor General on the financial statements for the fiscal year ended March 31, 1978 is included in these Public Accounts.

EVAN M. WOLFE
Minister of Finance

*Ministry of Finance,
Victoria, B.C.
January 31, 1979*

VICTORIA, B.C., JANUARY 31, 1979

The Honourable Evan M. Wolfe
Minister of Finance

SIR: I have the honour to submit herewith the Public Accounts of the Province of British Columbia for the fiscal year ended March 31, 1978.

The preliminary financial statements of the Government previously published contained certain minor errors and omissions which have now been corrected; neither the surplus accounts nor the results for the year are affected. Note 4 to the financial statements concerning superannuation and pension plans has been completely rewritten.

Respectfully submitted,

LIONEL G. BONNELL, C.A.
Comptroller-General

PROVINCE OF BRITISH COLUMBIA

LIONEL G. BONNELL, C.A.
Comptroller-General

NOTES TO FINANCIAL STATEMENTS**1. Accounting**

For purposes of the financial statements, funds or accounts held in trust and those set aside or earmarked for specific or special purposes are segregated from the general operating accounts of the government. Thus the accounts are presented in four separate fund divisions—General, Special Purpose, Superannuation and Trust—as shown in the Statement of Assets and Liabilities. The accounting policies and practices employed in the four divisions are summarized below:

A. GENERAL FUND

The accounts of the General Fund are maintained on a cash basis whereby revenues are taken into the accounts in the fiscal period in which they are received and expenditures are charged when the actual payments are made. The financial statements reflect this cash-basis accounting, but with the following major modifications:

- (a) Moneys received in April of the next following year pertaining to cost-sharing programs with other governments (principally the Government of Canada), and for which the relative program expenditures have been charged to the current year, are included in revenues and shown as accounts receivable in the statement of assets and liabilities.
- (b) Accounts payable at March 31 for which cheques are issued during April of the next following year are included in current-year expenditures and are shown as accounts payable in the statement of assets and liabilities.
- (c) Interest accrued on the unmatured deficit repayment debt at March 31 is included in budgetary expenditure and shown in other current liabilities in the statement of assets and liabilities.

General Fund revenues and expenditures are separated into two distinct categories:

- (a) Budgetary transactions: All regular revenues and all ordinary expenditures of government. These are reported in the form of and are compared with the annual Estimates of Revenue and Expenditure as authorized by the Legislature.
- (b) Other, nonbudgetary transactions: Any extraordinary revenues of significant amount and all nonbudgetary expenditures and surplus appropriations, such as appropriations of moneys to and recoveries of balances from Special Purpose Funds, and capital investment in and advances to Crown corporations, boards, etc.

The overall net revenue or expenditure of the General Fund for a fiscal period increases or decreases the Revenue Surplus Account of the Province.

In addition to the operational or current assets and liabilities and the unmatured debt, the Province records certain assets for purposes of record only through credits to Capital Surplus Account. These are: Taxes and other accounts receivable which are not included in Revenue until received in cash, loans and other advances, investments in and advances to Crown corporations, etc., and fixed assets.

B. SPECIAL PURPOSE FUNDS

The accounts of all Special Purpose Funds are maintained on a cash basis with the exception of the Housing, Lottery and Provincial Home Acquisition Funds, wherein mortgage loans, accounts and advances receivable, and investments in real estate, as well as investments in and advances to housing corporations are not charged to expenditure accounts but are capitalized and shown as assets of the respective Funds.

C. SUPERANNUATION FUNDS AND TRUST FUNDS

The individual Funds in these categories are maintained on a cash basis.

2. Loans and Other Advances

Loans and other advances are carried as assets at book value (net of reserves in certain cases), as the amount of their ultimate realization cannot be determined at this date.

3. Investment in and Advances to Crown Corporations

The interest of the Province in its Crown corporations is shown in the financial statements only to the extent of the amounts actually invested in or advanced to them; thus accumulated earnings (or deficits) of these organizations are not reflected therein. Financial statements of Crown corporations and other Government agencies are presented in Section F of this publication.

4. Superannuation and Pension Plans

A. PUBLIC SERVICE SUPERANNUATION PLAN

This plan is financed by employee contributions, matching employer contributions, and additional employer contributions paid at the time each allowance is granted for any shortfall between the actuarial present value of the allowance and the accumulated employee and matching employer contributions.

Under the *Public Service Superannuation Act*, an actuarial valuation of the plan is required to be conducted at least once every five years. The most recent valuation was conducted as at March 31, 1977.

In that report the actuary indicated that, if the plan were financed on the entry age normal basis, a basis frequently employed by private pension plans, there would be an actuarial liability as at March 31, 1977, of about \$154 million in respect of basic benefits. In the actuary's opinion, aggregate statutory contributions, as described above, will exceed entry age normal contributions and he has estimated that these contributions will be sufficient to fully amortize the \$154 million actuarial liability over a period of approximately 20 years if all actuarial assumptions are realized.

Allowances in payment are automatically adjusted quarterly to reflect increases in the Consumer Price Index. Such pension supplements are financed on an approximate "pay-as-you-go" basis by contributions of one-half per cent of salary by both employees and employer. Actuarial liabilities associated with such increases are not funded under the statutory financing provisions, but there is provision for both employee and employer contributions to be increased to 1 per cent of salary when required to maintain the financing on a "pay-as-you-go" basis. There is no statutory provision for any additional contributions beyond this to finance these post-retirement supplements even though it is possible that in future such contributions would be required to maintain financing on the "pay-as-you-go" basis. The actuary reported that as at March 31, 1977, there was an actuarial liability of \$37 million in respect of the pension supplements granted up to that date.

B. TEACHERS' PENSIONS PLAN

Under the *Teachers' Pensions Act* the Province is responsible for the employer contributions to the Teachers' Pensions Fund administered by the Commissioner of Teachers' Pensions; these contributions are included in the budgetary expenditures of the Ministry of Education. A report on the administration of the plan and fund is made annually to the Legislature.

This plan is financed by teacher contributions, matching Government contributions, and additional Government contributions made to ensure that at any time the assets in the fund are at least equal to the actuarial present value of all allowances which are in effect and the total amount of contributions, accumulated with interest, held in the fund on behalf of teachers in respect of whom no allowance has been granted.

Under the *Teachers' Pensions Act*, an actuarial valuation of the plan is required to be conducted by an actuary at least once in each consecutive five-year period. The most recent valuation was conducted as at December 31, 1974. In that report the actuary recommended that the statutory basis of contributions be strengthened so that contributions, in future, would be sufficient to fully finance benefits for all new entrants to the plan and to hold the actuarial liability constant as a percentage of future teacher payroll. On this basis, he advised that the actuarial liability was \$468 million for basic benefits. An actuarial valuation is presently being conducted as at December 31, 1977, and the actuary expects to submit his report by February 28, 1979. Preliminary indications are that the actuarial liability at December 31, 1977, will increase to about \$550 million from the \$468 million at December 31, 1974.

Discussions are continuing between Government and teachers as to the manner in which the recommended increase in contribution rates should be achieved and no change has yet been made. Any such change would require amendment of the Act.

Allowances in payment are automatically adjusted quarterly to reflect increases in the Consumer Price Index. Such pension supplements are financed on an approximate "pay-as-you-go" basis by contributions of 1 per cent of salary by both teachers and Government. Actuarial liabilities associated with such increases are not funded under the statutory financing provisions. There is no statutory provision for any additional contributions to finance these post-retirement supplements even though it is possible that in future such contributions would be required to maintain financing on the "pay-as-you-go" basis.

5. Commitments

No provision is made in the accounts for commitments under construction or other contracts in force at the year-end. Such future expenditures are charged to appropriations in the years in which the work or service is performed.

6. British Columbia Railway Company

The Province holds the entire issued share capital of the Railway and, pursuant to the *British Columbia Railway Company Construction Loan Act*, the Province guarantees the payment of the principal and interest of all moneys borrowed by the Railway. The investment and guarantee are shown in the financial statements under

(a) Investment in and advances to Crown corporations:

The investment is carried at the historical cost of the shares, \$185,572,900. (See note 3 above.)

(b) Guaranteed debt:

The outstanding debt of the Railway at March 31, 1978, net of sinking funds held, aggregated \$652,760,711.

The financial statements of the Railway at December 30, 1977 (reproduced in Section F of this report) show that the net overall shareholder's position is a deficit of \$9,090,706 after recording a net loss for the year then ended of \$58,291,395. The Railway in a submission to the Royal Commission (see below) stated that "Substantial debt relief is required. B.C. Railway cannot in the foreseeable future expect to earn sufficient moneys to service let alone repay this debt." The annual interest and debt repayment charges will average approximately \$69 million over the next five years.

By Order in Council dated February 7, 1977, a Royal Commission was appointed "to make inquiry into and concerning all aspects of the management and development of the British Columbia Railway and the participation of the Crown therein as shareholder," including a particular inquiry into "the foreseeable financial requirements of the Railway for all purposes." The final report of the Commission was submitted to the Government on August 28, 1978, and is currently under review. An addendum dealing with specific statutory revisions to give effect to its recommendations has not yet been received.

7. Anti-inflation Legislation

The Province is subject to controls on compensation instituted by the Government of Canada pursuant to an agreement entered into under the *Anti-Inflation Measures Act* (1976, chap. 1), effective June 21, 1976.

8. Revenue Surplus Appropriation

Pursuant to the *Revenue Surplus of 1976-77 Appropriation Act, 1978*, \$76,129,730 of the Revenue Surplus Account has been appropriated for specific purposes.

AUDITOR GENERAL'S REPORT

*To the Legislative Assembly
of the Province of British Columbia
Parliament Buildings
Victoria, British Columbia*

I have examined the financial statements of the Government of the Province of British Columbia for the year ended March 31, 1978, as presented in the Public Accounts, and the related schedules contained in Sections B and C of the Public Accounts. These statements are:

Statement of Assets and Liabilities as at March 31, 1978.

Notes to Financial Statements.

Summary of Transactions for the Fiscal Year ended March 31, 1978.

Summary of General Fund Revenues for the Fiscal Year ended March 31, 1978.

Summary of General Fund Expenditures for the Fiscal Year ended March 31, 1978.

Statement of Source and Application of Funds for the Fiscal Year ended March 31, 1978.

These statements and schedules in my opinion constitute the statements of financial position, the results of operations and changes in financial position referred to in section 7 of the *Auditor General Act*, S.B.C. 1976, chapter 3.

I did not examine and do not express an opinion on:

Statement of Consolidated Revenue by Major Sources for the fiscal years ended March 31, 1973, through 1978.

Statement of Consolidated Expenditure by Major Functions for the fiscal years ended March 31, 1973, through 1978.

The information contained in these statements is supplementary in nature and not an integral part of the financial statements on which I am required to report.

Except as explained in the following paragraph, my examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances. I have received all the information and explanations I have required for the purpose of my examination.

My office commenced operations in January 1978, and staff resources and time available for this initial examination were limited. It was not feasible to satisfy myself as to the asset and liability position at the beginning of the 1978 fiscal year and, in addition, an independent audit was not performed for the preceding fiscal year. As a result of these conditions, the extent of my tests and procedures was insufficient to provide the level of assurance necessary for an unqualified opinion on the financial statements and on the consistency of the accounting bases followed as between the fiscal years 1977 and 1978.

I have relied upon information furnished by the Consulting Actuary for the Public Service Superannuation Fund and the Teachers' Pensions Fund as to the accuracy of Note 4 to the financial statements as presented in the Public Accounts.

I report in accordance with section 7 of the *Auditor General Act*. In my opinion, except for the effect of any adjustments which might have been indicated by a more extensive audit examination, these financial statements present fairly the financial position of the Government of the Province of British Columbia as at March 31, 1978, and the results of operations and changes in financial position for the year then ended in accordance with the stated accounting policies as set out in Notes 1, 2, 3, and 5 to the financial statements. For the reasons stated, I do not express an opinion with respect to the consistency of the accounting bases followed as between the fiscal years 1977 and 1978, nor on the 1977 comparative figures presented in the financial statements.

It is emphasized that my opinion above is limited under section 7 of the Act to an opinion on presentation of the financial statements in accordance with the stated accounting policies of the Government. Under section 8 of the Act I report separately to the Legislative Assembly on other matters. That report, dated January 31, 1979, contains a number of comments in regard to accounting policies and disclosure. The most important of these comments relates to the treatment in the Government's financial statements of debt of other parties guaranteed by the Province when the debtor appears unable to meet his obligations. This is of particular importance this year in relation to debt of British Columbia Railway Company guaranteed by the Province.

ERMA MORRISON, C.A.
Auditor General

Victoria, B.C.
January 31, 1979.

¹ The British Columbia Buildings Corporation assumed responsibility for constructing public buildings on October 1, 1976. This amount therefore does not include \$25,954,524 relating to construction projects reported on by the Corporation for the period October 1, 1976, to March 31, 1977. Pursuant to the *British Columbia Buildings Corporation Act*, the Province has made grants to the Corporation in the fiscal year 1976/77 totalling \$25,954,524. This amount is included in grants to Crown corporations under the "Other Payments and Charges" category.

² The amounts for British Columbia Ferries represent gross Ministry expenditures up to and including December 31, 1976. Subsequently, the amounts are comprised of a subsidy equivalent to the net operating loss of the British Columbia Ferry Corporation for the period January 1 to March 31, 1977, and for the 1977/78 fiscal year, the annual highway equivalent subsidy plus certain rental leases paid by the Government.

³ Subsequent to October 1973, aid to blind persons was incorporated in Social Assistance.

¹ Pursuant to the *British Columbia Buildings Corporation Act* (Order in Council 763/78), the British Columbia Buildings Corporation issued a noninterest bearing promissory note to the Province dated March 30, 1978, in the amount of \$143,570,934 payable in 29 semiannual instalments, in payment for the completed buildings transferred to the Corporation by the Province. The Corporation paid the first instalment due March 31, 1978, in the amount of \$10,000,000. As buildings under construction are completed, further notes are to be issued to the Province in consideration of expenditures made by the Province on such buildings prior to transfer to the Corporation.

² In addition to its investment in the capital stock of the British Columbia Development Corporation, the Government has advanced the corporation \$20,000,000 repayable March 31, 1979. This advance is included in Temporary Investments (page B 2).

¹ Pursuant to the *British Columbia Resources Investment Corporation Act* (Order in Council 530/78) the following assets and rights were transferred to the British Columbia Resources Investment Corporation in exchange for a promissory note based on the valuations shown:

| | |
|--|----------------------|
| Canadian Cellulose Company Limited— | |
| 9,848,453 common shares without par value; 39,750 nonvoting shares without par value | \$64,273,320 |
| Plateau Mills Ltd.—9,000 common shares, par value of \$10 | 9,000,000 |
| Kootenay Forest Products Ltd.—11,993,399 common shares, par value of \$1 | 1 |
| Westcoast Transmission Company Limited—1,157,125 common shares without par value | 37,363,566 |
| Province of British Columbia—Assigned petroleum or natural gas rights | 40,896,043 |
| Valuation of promissory note | <u>\$151,532,930</u> |

The book values of these assets and rights were as follows:

| | |
|---|--------------|
| (a) Shares received as a dividend from British Columbia Cellulose Company in repayment of advances | \$19,849,421 |
| Canadian Cellulose Company Limited—9,570,353 common shares; 39,750 nonvoting shares Plateau Mills Ltd.—225 common shares Kootenay Forest Products Ltd.—11,993,399 common shares | |
| (b) Canadian Cellulose Company Limited—278,100 common shares held as temporary investment | 1,824,942 |
| (c) Plateau Mills Ltd.—8,775 common shares held as investment in Crown corporation | 7,663,256 |
| (d) Westcoast Transmission Company Limited—1,157,125 common shares held as investment, other | 25,456,750 |
| (e) Petroleum and natural gas rights | Nil |

² Placed on the books March 31, 1926, by order of the Treasury Board, based on mileage classification and average value determined by the then Department of Public Works, plus additions to date.

³ As of March 30, 1978, assets in the amount of \$381,571,109 (at cost) less accumulated depreciation of \$84,359,819 were transferred to the British Columbia Buildings Corporation pursuant to the *British Columbia Buildings Corporation Act*.

¹ Interest earned on the assets of this fund is credited to Budgetary Revenue.

² Housing Fund—real estate acquisition and development costs are not charged to fund expenditures but are carried as other assets (page B 10). The costs will be reflected in the fund transactions in future years upon disposal of the properties.

³ Provincial Home Acquisition Fund expenditures comprise statutory abatements and remissions *re* mortgage loans as well as home acquisition grants. The home-owner (mortgage) loans issued are not charged to fund expenditures but are carried as receivables (page B 10).

| Grand total all guaranteed debt | 6,913,656,916 | 625,476,764 | 6,288,180,152 |

¹ Except in the case of the British Columbia Hydro and Power Authority where debt payable in United States dollars is translated to Canadian dollars at the rates of exchange prevailing at the date the debt was incurred, debt payable in United States dollars is recorded at par. Translation of the debt payable in United States dollars at the rate of exchange as at March 31, 1978, would increase the total gross debt outstanding by approximately \$198 million. In addition, interest accrued at March 31, 1978, on the gross debt would further increase the total gross debt by approximately \$169 million.

² Sinking funds comprise cash and investments recorded at par value plus accrued interest except for Item (7) recorded at book value plus cash and accrued interest and Item (9) shown at an adjusted value equivalent to the debt outstanding (book value plus accrued interest equals \$31,514,681). Translation of securities payable in United States funds, including accrued interest, at the rate of exchange as at March 31, 1978, would increase the total value of sinking funds by approximately \$11 million.

³ Repayable serially.

1. Debentures may be obtained in fully registered form in denominations of \$1,000 and authorized multiples thereof.

2. The Province has the right at its option to redeem the debentures of this issue on May 1, 1978, as a whole or in part by lot.

3. The Province has the right at its option to redeem the debentures of this issue on June 18, 1977, or any date thereafter, as a whole or in part by lot.

4. The Province has the right at its option to redeem the debentures of this issue on April 15, 1977, or any date thereafter, as a whole or in part by lot.

5. On May 1, 1978, the Province exercised its option to redeem the debentures and treasury bills comprising the direct debt in the amount of \$261,447,790 and substituted therefor 9.125% Bonds, Series B, in the same amount dated May 1, 1978, and due May 1, 1988. The Bonds are repayable in 10 annual instalments commencing May 1, 1979. The Province has the right at its option to redeem the Bonds on June 1, 1978, or any date thereafter, as a whole or in part.

A GUIDE TO DETAILS OF EXPENDITURE

Vote expenditures are shown under the uniform classifications according to the nature of the expenditure as outlined hereunder.

Salaries—established positions.

Temporary assistance—temporary and seasonal staff.

Allowances and expenses—Members and officers of the Legislative Assembly.

Fees and allowances—Boards, Commissions, courts, etc.

Travel expense:

Includes expenses of public servants and members of Boards, Commissions, etc.

Also includes lease and operation of motor-vehicles used for staff travel purposes and staff relocation and transfer expenses.

Professional and special services:

Fees and expenses for services rendered by professionals such as legal, engineering, educational, medical-dental, management consulting, etc., as well as various services provided by other businesses not included in other classes. Also included are services provided by the B.C. Systems Corporation for the design, development, implementation, and operation of manual and machine-assisted information systems.

Office expense:

The supplies and expenses required for the operation of offices.

Office furniture and equipment.

Purchase of furniture and equipment, but not lease or rental.

Advertising and publications:

Includes all costs associated with advertising and publications, including services of outside agencies and consultants.

Materials and supplies:

Provides for all those items not included in other categories (e.g., office expense) and includes parts and consumable tools as well as fuels and utilities.

Motor-vehicles:

Purchase of motor-vehicles for use in transport of personnel.

Rentals—outside suppliers:

Includes the lease or rental of land, buildings, aircraft, and equipment not included in another classification (such as automobiles for staff travel).

Rentals—intra-ministry:

Charges for the use of equipment between various programs and activities within a ministry.

Acquisition—land and buildings:

Costs of acquiring these physical assets through purchase or contract, but not construction by a ministry's own forces.

Acquisition—machinery and equipment (not included elsewhere):

Includes purchase of aircraft, construction equipment, ships and boats, etc.

Grants, contributions, and subsidies:

These are payments, other than for goods and services, made for the purpose of furthering ministerial programs. Payments include those to individuals and nonprofit organizations, municipalities, Government agencies and Crown corporations, and subsidies to industries.

Other expenditure:

Includes all expenditure not otherwise classified, such as interest on deposits, supplementary personnel costs (superannuation, etc.), transfers to special funds, loans and advances, etc.

Recoveries—intra-ministry:

Recoveries for the use of equipment between various programs and activities within a ministry.

Recoveries:

Cost recoveries in cash or by transfer billings to other votes, such as in the case of the Queen's Printer operation.

FIXED-CAPITAL (PERPETUAL) FUNDS—CURRENT ACCOUNTS

British Columbia Cultural Fund

Originally created as the "Centennial Cultural Fund" by the *Centennial Cultural Fund Act* (1967, chap. 2). Section 3 of the Act provides that the interest earned each year shall be used for the purpose of stimulating the cultural development of the people of the Province. The name of the Fund was changed effective March 31, 1972, pursuant to the *Centennial Cultural Fund (Amendment) Act*.

| Balance, March 31, 1978 | 66,465 |

Drug, Alcohol, and Cigarette Education, Prevention, and Rehabilitation Fund

This fund was created as of March 31, 1971, under authority of the *Special Funds Appropriation Act* (1971, chap. 57). Section 2 provides that the interest credited to the Fund may be paid out by the Minister of Finance for the following purposes:

- Education respecting the problems resulting from the use of drugs, alcohol, or cigarettes;
- Rehabilitation from the effects resulting from the use of drugs, alcohol, or cigarettes;
- Prevention of the use of drugs, alcohol, or cigarettes.

OTHER FUNDS

Accelerated Reforestation Fund

This Fund was created as of March 31, 1972, under the *Accelerated Reforestation Fund Act* (1972, chap. 2) for the purpose of an accelerated reforestation or forest improvement program in the Province, including land acquired under the *Green Belt Protection Fund Act*.

Balance, March 31, 1977 and 1978 1,477

Agricultural Credit Fund

This Fund was created by the *Agricultural Credit Act* (1973 (2nd Sess.), chap. 96) for the purpose of providing loans or guarantees of bank loans to farm operators. The proceeds of these loans are to be used for improving quality and quantity of agricultural products through the purchase of livestock and machinery, repair and maintenance of farm facilities, and improvement of the land and roads.

Balance, April 1, 1977 2,885
Less expenditure 2,885

Balance, March 31, 1978 —

Crop Insurance Stabilization Fund

This Fund was created by the *Crop Insurance Stabilization Fund Act* (1967, chap. 16) for the purpose of giving financial stability to any plan under the *British Columbia Crop Insurance Act*. The balance of advances receivable from the Crop Insurance Accounts as at March 31, 1978, is \$700,000.

Balance, April 1, 1977 14,567,394
Add interest received from investments 1,259,590

Balance, March 31, 1978 15,826,984

Farm Income Assurance Fund

Created by authority of the *Farm Income Assurance Act* (1973 (2nd Sess.), chap. 115), and by authority of the *Special Funds Appropriation Act, 1974* (1974, chap. 85) for the establishing, carrying-out, and administering of farm income plans for such farmers in the Province as may be designated by the Lieutenant-Governor in Council.

Provincial Transit Fund

This Fund was created under authority of the *Burrard Inlet (Third Crossing) Fund Act* (1968, chap. 62).

The Act was amended by the *Burrard Inlet (Third Crossing) Fund (Amendment) Act* (1974, chap. 14) in 1974 by substituting a new title, *Provincial Transit Fund Act*, and by changing the scope to make payments out of the Fund for the purposes of purchasing, constructing, equipping, and operating such transit facilities or services in the Province as may be required under the *Transit Services Act*.

Any interest earned shall be paid into the General Fund.

Balance, April 1, 1977 1,006,806

MISCELLANEOUS STATUTORY ACCOUNTS

Consumer Advancement Fund

Established under authority of section 30 of the *Trade Practices Act* (1974, chap. 96) for the protection or advancement of the interests of consumers. Investigation costs reimbursed by a supplier and costs awarded by a court are credited to the Fund.

Balance, March 31, 1977 and 1978 1,301

Crop Insurance Accounts

Established under authority of the *British Columbia Crop Insurance Act* (1966, chap. 4) for the purpose of providing insurance against loss of production of various crops. The Crop Insurance Stabilization Fund has provided financial assistance in prior periods by way of repayable advances. The balance of advances as at March 31, 1978 is \$700,000.

BRITISH COLUMBIA ASSESSMENT AUTHORITY

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

737 Courtney Street
Victoria, B.C.
V8V 1X4

AUDITOR'S REPORT

To The Minister of Finance
Province of British Columbia, and

To The Members of the
British Columbia Assessment Authority:

I have examined the statement of financial position of the British Columbia Assessment Authority as at 31 December 1977 and the statement of operating and capital transactions and equity for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 December 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 December 1976 were reported on by the Acting Comptroller-General of the Province of British Columbia.

A handwritten signature in cursive script, reading "Erma Morrison".

(Mrs.) Erma Morrison, C.A.
Auditor General

Victoria, British Columbia
11 April 1978

BRITISH COLUMBIA ASSESSMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1977

1. Significant Accounting Policies

The Authority, by by-law, and subject to the prior approval of the Lieutenant-Governor in Council, each year imposes and levies a tax upon all taxable property in the Province. A copy of this by-law is forwarded to the Tax Collector of every municipality in the Province and to the Surveyor of Taxes so that the taxes so levied will be placed on the tax rolls. The proceeds of the taxes so levied and collected by the municipalities or the Minister of Finance constitute the Authority's tax levies revenue.

Property and equipment are charged to operations at the time of acquisition and concurrently are recorded as assets. The Authority does not record depreciation expense. Upon disposal, the original cost of an asset is removed, and any proceeds are credited to operations.

2. Finances

The Authority is entitled to receive from the Province of British Columbia:

- a) annual capital grants of \$1,500,000 for a period of five years which commenced in 1975;
- b) annual operating grants which commenced in 1975, equivalent to the sum produced by a levy of one-tenth of one mill on the total assessed value of all taxable property in the Province. In lieu thereof the Authority has received grants of \$4,200,000 in each year.

Under Section 16(3) of the Assessment Authority of British Columbia Act, the Authority's annual tax levies are to be "at a rate sufficient to maintain the operating fund". The operating fund is defined under Section 16(2) as "the total amount required to meet the annual operating and capital expenses of the Authority". Section 16(3) further specifies that in determining the rate of taxation to be levied "the Authority shall take into account the amount of the annual operating grant". However, in determining the annual tax levies both the capital and operating grants from the Province of British Columbia have been taken into account.

3. Commitments

The Authority is committed to make the following payments during the next five years on buildings leased for periods of more than one year:

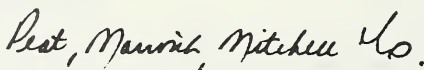

| | |
|------|--------------|
| 1978 | \$ 1,008,000 |
| 1979 | 914,000 |
| 1980 | 384,000 |
| 1981 | 116,000 |
| 1982 | 68,000 |

BRITISH COLUMBIA BUILDINGS CORPORATION**AUDITORS' REPORT**

To the Lieutenant-Governor in Council,
Province of British Columbia:

We have examined the balance sheet of British Columbia Buildings Corporation as at March 31, 1978 and the statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Buildings Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

BRITISH COLUMBIA BUILDINGS CORPORATION**NOTES TO THE FINANCIAL STATEMENTS****March 31, 1978****1. Status of the Corporation**

The British Columbia Buildings Corporation is incorporated as a Crown Corporation of the Province of British Columbia under the British Columbia Buildings Corporation Act, S.B.C., 1976, Chapter 5, assented to September 30, 1976, and is an agent of the Crown.

2. Valuation of Assets Acquired from the Province of British Columbia

Income-Producing Properties and Land Held For and Under Development were acquired from the Province of British Columbia as at April 1, 1977, and confirmed by Lieutenant-Governor Order-in-Council of March 30, 1978. For purposes of these statements, the acquisition value of these assets has been considered as cost to the Corporation.

Income-Producing Properties and Land Held For and Under Development were generally valued with reference to assessed values as determined by the British Columbia Assessment Authority provided that the resulting valuation was not in excess of the economic value. Income-Producing Properties Under Construction were valued at cost, Corporate Properties were valued with reference to assessed values, and all other assets were valued at their estimated market value.

As consideration for the assets transferred by Order-in-Council of March 30, 1978, a non-interest-bearing redeemable note in an amount of **\$143,571,000** was issued to the Province, and the balance was recorded as a Contribution to the Corporation by the Province.

3. Accounting Policies**(a) Recognition of Revenue**

The Corporation recognizes property income on a project basis when that project is substantially complete. Single-unit buildings are considered to be substantially complete when they are first available for occupancy and multi-unit buildings at the earlier of the break-even point in cash flow or six months after the completion of construction. The break-even point in cash flow is rental income net of operating expenses, finance and interest charges. Prior to this date, any revenue earned on a property is deducted from the cost of construction.

(b) Land Held For and Under Development

Land held for the development of Income-Producing Properties is recorded at cost and Land to be developed for sale is recorded at the lower of cost or net realizable value.

NOTES TO THE FINANCIAL STATEMENTS**March 31, 1978****3. Accounting Policies (Cont'd)****(c) General Borrowings and Related Interest Charges**

The interest on general borrowings attributable to Income-Producing Properties Under Construction and Land Held For and Under Development is added to the cost of these assets, and the interest on general borrowings attributable to all other assets is expensed in the period to which it relates.

(d) Depreciation

Real Estate Investments, Corporate Properties, Vehicles, Furniture and Equipment are depreciated on an individual basis by the straight-line method over their estimated useful life. The Corporation does not anticipate any salvage or residual values in setting its depreciation rates. Depreciation is pro-rated by month in the year of acquisition in the case of buildings; a full year's depreciation is taken in the year of acquisition for all other depreciable assets and none in the year of disposal.

The estimated useful life of Income-Producing and Corporate Properties acquired from the Province of British Columbia is between five and twenty-five years. The estimated useful life of all other assets, including those acquired from the Province, is between three and ten years.

(e) Capitalization of Costs

Real Estate Investments, Corporate Properties, Vehicles, Furniture and Equipment are recorded at cost less accumulated depreciation. In addition to land and direct development and construction costs, amounts capitalized as Real Estate Investments include interest, property taxes, carrying and other related costs in addition to the applicable portion of general and administrative expenses considered as part of the cost of Income-Producing Properties Under Construction and Land Held For and Under Development.

(f) Deferred Start-Up Expenditures

The Corporation has deferred costs directly attributable to start-up in the total amount of **\$3,389,000**. These costs, which include relocation and recruitment expenses, consulting and other temporary staff charges and systems development costs, are amortized on the straight-line basis over five years commencing April 1, 1977. The total amount amortized to date is **\$678,000**.

(g) Income Taxes

The Corporation is exempt from Federal and Provincial Income Taxes.

| Redeemable in whole or in part on or after | (See below) | November 1, 1994 | April 1, 1995 | On 30 days' notice |

At the option of the Minister of Finance of Canada, the Sinking Fund Bonds Series A-1, may be redeemed prior to maturity under certain conditions on six months' written notice.

Sinking Fund Requirements:

The Corporation is required to establish sinking funds with the Minister of Finance, Province of British Columbia, in such amounts as shall be sufficient to retire the debt at maturity.

NOTES TO THE FINANCIAL STATEMENTS**March 31, 1978****9. Long-Term Debt (Cont'd)****Promissory Note:**

The Promissory Note is repayable semi-annually in varying amounts over the term of the Note.

Payments:

Payments on Long-Term Debt for the next five years are:

| | Sinking Fund | Promissory Note |
|-----------|---------------------|------------------------|
| 1978-1979 | \$564,350 | \$10,000,000 |
| 1979-1980 | 564,350 | 10,000,000 |
| 1980-1981 | 564,350 | 10,000,000 |
| 1981-1982 | 564,350 | 11,000,000 |
| 1982-1983 | 564,350 | 10,000,000 |

Subsequent Event:

Subsequent to March 31, 1978, the Corporation issued a Demand Note to the Province of British Columbia for **\$50,000,000** bearing interest at 8.05% and maturing October 2, 1978.

10. Guarantee by Province of British Columbia

The Government of British Columbia has unconditionally guaranteed the principal and interest on the long-term Sinking Fund Bonds issued by the Corporation.

11. Other Liabilities

| | \$000's |
|--|----------------------|
| Due to the Province of British Columbia | 12,067 |
| Accounts Payable and Accrued Liabilities | 12,837 |
| Retentions on Contracts | 6,327 |
| Accrued Interest Payable | 1,457 |
| Dividend Payable | 10,000 |
| | <u>42,688</u> |

12. Contributions by the Province of British Columbia

It is proposed that when the Block 51/61/71 project, Vancouver, is transferred to Income-Producing Properties, expected to occur in the 1978/79 fiscal year, all or part of the cost of amenities, currently estimated to be **\$35,000,000**, will be recorded as a reduction in the gross cost of the asset with a corresponding reduction in the Contributions by the Province in order to reduce the carrying value to estimated economic value.

In addition, the Corporation may be obligated to repay a portion of the Contributions made by the Province of British Columbia at a later date.

NOTES TO THE FINANCIAL STATEMENTS**March 31, 1978****13. Other Income**

This includes primarily services rendered on behalf of client ministries and other client tenants that are of an incidental nature and not included as part of the operating and maintenance portion of the rentals charged to clients.

14. Comparative Figures

At March 31, 1977, the Corporation had not commenced revenue-earning operations and, as a consequence, comparative figures for the period ended March 31, 1977 have not been presented with these Statements.

15. Commitments

The Corporation estimates that the cost to complete projects under construction will be **\$117,000,000** of which **\$28,000,000** has been committed.

The Corporation has entered into leases with third parties to provide space for its client ministries and its head office for varying periods up to the year 2032, at a total aggregate net rental of approximately **\$37,500,000**. Most leases are for five years and include renewal options.

Minimum annual lease payments which will be charged to operations in subsequent years, for leases in effect at March 31, 1978, are as follows:

| | \$000's |
|------------------|----------------------|
| 1978 - 1979 | 12,800 |
| 1979 - 1980 | 8,100 |
| 1980 - 1981 | 5,100 |
| 1981 - 1982 | 3,900 |
| 1982 - 1983 | 2,900 |
| Post 1982 - 1983 | 4,700 |
| | <u>37,500</u> |

16. Remuneration of Directors and Officers

Total remuneration paid to the officers of the Corporation amounted to **\$213,847**. No remuneration was paid to the directors who were not officers of the Corporation.

17. Anti-Inflation Legislation

The Corporation was subject to the terms of the Anti-Inflation Act and Regulations which expired subsequent to the end of the Corporation's fiscal year-end; however, the prices and profits section of the Regulations did not apply to the Corporation's business related to the rental of real property.

The Corporation complied with the legislation in all material respects.

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the balance sheet of British Columbia Cellulose Company as at December 31, 1977 and the statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In accordance with Section 213 of the British Columbia Companies Act, we report that, in our opinion, the information given with regard to the subsidiary companies is satisfactory.

BRITISH COLUMBIA CELLULOSE COMPANY

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

1. SIGNIFICANT ACCOUNTING POLICIES

Principles of Equity Accounting

The investment in shares of the two subsidiary companies, Canadian Cellulose Company, Limited and Kootenay Forest Products Limited, is accounted for on the equity basis since the companies cannot be considered to constitute a single economic entity with full interchangeability of management and other resources. The investments in shares are carried at their original cost plus their share of net earnings since acquisition less dividends received (1977 - \$3,075,233; 1976 - \$2,931,081) (note 3).

The audited financial statements of the two subsidiaries are published separately and are available for information purposes.

Depreciation

Depreciation on office equipment is taken at 20% on a reducing balance.

Comparative Figures

Certain comparative figures have been restated to conform with the presentation adopted in the current year. These restatements have had no effect on earnings or retained earnings but have increased working capital as at December 31, 1975 and 1976 by \$1,689,872 and \$1,069,872 respectively.

2. INVESTMENT IN AND ADVANCES TO PLATEAU MILLS LTD.

| | 1977 \$ | 1976 \$ |
|---|------------------|------------------|
| Investment in shares - at cost (2.5%) (note 10) | 191,250 | 191,250 |
| Advances | <u>5,269,872</u> | <u>5,889,872</u> |
| | 5,461,122 | 6,081,122 |
| Less: Current portion of advances | <u>620,000</u> | <u>620,000</u> |
| | <u>4,841,122</u> | <u>5,461,122</u> |

Advances are with interest at prime bank lending rate plus 1/2% and are repayable in equal quarterly instalments of \$155,000 to September 1986. Security is by way of fixed and floating charges on Plateau's assets, subject to a prior debenture of \$4,500,000.

BRITISH COLUMBIA CELLULOSE COMPANY

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

3. INVESTMENT IN AND ADVANCES TO SUBSIDIARY COMPANIES (note 10)

| | 1977 \$ | 1976 \$ |
|--|--------------------|--------------------|
| Investment in shares - at equity | | |
| Canadian Cellulose Company, Limited - 78.7% | 93,321,521 | 82,827,963 |
| Kootenay Forest Products Ltd. - 100% | <u>(699,686)</u> | <u>(1,516,385)</u> |
| | 92,621,835 | 81,311,578 |
| Advances to Kootenay Forest Products Ltd. | <u>11,602,729</u> | <u>11,602,729</u> |
| | <u>104,224,564</u> | <u>92,914,307</u> |

The original investment in shares of Kootenay Forest Products amounted to \$2,747,706 which was written down in 1975 to net book value at the date of acquisition. No cost was attributed to the shares of Canadian Cellulose Company.

Advances are without interest or fixed repayment terms.

4. BANK TERM LOAN

| | 1977 \$ | 1976 \$ |
|---|----------------|------------------|
| Repayable in quarterly instalments of \$155,000 with interest at prime bank rate | 1,069,872 | 1,689,872 |
| Less: Current portion | <u>620,000</u> | <u>620,000</u> |
| | <u>449,872</u> | <u>1,069,872</u> |

5. ADVANCES FROM THE PROVINCE OF BRITISH COLUMBIA

These advances are repayable on demand. Interest at prime bank rate is payable quarterly. Payments of principal and interest have not been made pending a decision by the Province of British Columbia as to the ultimate disposition of these advances (note 10). Interest has been accrued and is included as a long-term liability together with the principal amount of the advances (1977 - \$5,273,662; 1976 - \$4,055,771).

6. CAPITAL STOCK

| 1977 | 1976 |
|------|------|
| \$ | \$ |

Authorized -
1,000,000 common shares of no par value

Issued and fully paid -
2 shares

| | |
|---|---|
| 2 | 2 |
| = | = |

These shares are wholly-owned by the Province of British Columbia.

7. INCOME TAXES

As a Provincial Crown Corporation, the company is exempt from Federal and Provincial income taxes.

8. ANTI-INFLATION PROGRAMME

By virtue of an agreement dated June 23, 1976 between the Province of British Columbia and the Federal Government, the company is subject to restraint of dividends under the terms of the Anti-Inflation Act and Regulations with effect from June 23, 1976 and restraint of compensation with effect from October 14, 1975. The company believes that it has complied in all respects with the provisions of the agreement.

9. DIRECTORS' REMUNERATION

Included in administrative expenses is the total remuneration paid to directors and senior officers of the company, amounting to \$40,750 (1976 - \$59,334).

10. SUBSEQUENT EVENTS

On March 7, 1978 the company subscribed for an additional 11,602,729 common shares in Kootenay Forest Products Ltd. at \$1 per share, which funds were then used to repay the company's advances to Kootenay.

On March 9, 1978 the company declared a specie dividend to the Crown in right of the Province consisting of all of its shares owned in Canadian Cellulose Company, Limited, Kootenay Forest Products Ltd. and Plateau Mills Ltd. In addition, the advances from The Province of British Columbia, including interest, were forgiven.

CHARTERED ACCOUNTANTS

AUDITORS' REPORT

To the Honourable Donald M. Phillips, Minister,
Department of Economic Development,
The Government of The Province of British Columbia.

We have examined the consolidated balance sheet of British Columbia Development Corporation as at March 31, 1978 and the consolidated statements of earnings and retained earnings and changes in industrial development programs for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its industrial development programs for the year then ended in accordance with generally accepted accounting principles which, except for the change in method of capitalizing expenses to land and development projects referred to in Note 4, have been applied on a basis consistent with that of the preceding year.

Vancouver, Canada.

Campbell Sharp

BRITISH COLUMBIA DEVELOPMENT CORPORATIONNOTES TO THE CONSOLIDATED FINANCIAL STATEMENTSMarch 31, 19781. SIGNIFICANT ACCOUNTING POLICIESa) Consolidation

The consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiary companies:

The First Capital City Development Company Limited
Duke Point Development Limited
Duke Point Terminals Ltd.

b) Provision for Losses on Loans and Guarantees

Loan account arrears and guarantees are reviewed on a regular basis by management and uncollectible loans are written off. An allowance in the amount of \$1,350,000 (1977 - \$1,100,000) has been made for estimated future losses.

c) Land and Development Projects

Land held for future development is carried at cost. Land under development, development projects and completed developments held for sale are carried at the lower of cost and estimated net realizable value. Cost includes, in addition to the acquisition cost of land, net carrying costs; direct development expenditures, direct salaries and expenses; and a proportion of all other expenses.

d) Depreciation and Amortization

Furniture and equipment are depreciated on a straight-line basis over five to ten years. Leasehold improvements are amortized over the remaining term of the leases.

e) Leased Properties

Leased properties are carried at cost. All leases are basically financing arrangements in which the lessee holds an option to purchase the property at a predetermined price which is not less than cost.

f) Contributed Surplus

The Corporation has been designated by the Government of the Province of British Columbia as its chief agency for dealing in provincial crown industrial landholdings. Contributed surplus arising from the transfer of crown lands to the Corporation is recorded in amounts equal to the estimated economic values of the properties to the Corporation at the dates of receipt.

Campbell Sharp

- 2 -

BRITISH COLUMBIA DEVELOPMENT CORPORATIONNOTES TO THE CONSOLIDATED FINANCIAL STATEMENTSMarch 31, 1978

2. STATUS OF THE CORPORATION

The British Columbia Development Corporation is a company duly incorporated pursuant to an Act of the Legislature of the Province of British Columbia.

3. LAND AND DEVELOPMENT PROJECTS

Land has been acquired to create industrial parks and when completed will be sold or leased to industrial enterprises. Development projects are undertaken to promote industrial expansion.

At March 31, 1978 land and development projects, carried at the lower of cost and net realizable value, consisted of:

| | 1978 | | | 1977 |
|----------------------------------|----------------------|----------------------|----------------------|----------------------|
| | <u>Acquisition</u> | <u>Development</u> | <u>Total</u> | <u>Total</u> |
| Land held for future development | \$ 5,553,779 | \$ 708,993 | \$ 6,262,772 | \$ 6,718,293 |
| Land and development projects | 6,061,771 | 6,300,667 | 12,362,438 | 6,401,210 |
| Developed land held for sale | <u>2,680,773</u> | <u>3,650,499</u> | <u>6,331,272</u> | |
| | <u>\$ 14,296,323</u> | <u>\$ 10,660,159</u> | <u>\$ 24,956,482</u> | <u>\$ 13,119,503</u> |

4. CAPITALIZATION OF EXPENSES

During the year the method of capitalizing expenses was changed to include in the cost of land and development projects a larger proportion of the general expenses of the Corporation. Had the previous method of capitalizing only salaries and expenses directly related to land and development projects been followed in 1978, the amount capitalized would have been decreased from \$981,606 to \$606,000. As a result, the 1978 net earnings of \$2,838 would have been decreased by \$375,606 to a net loss of \$372,768 and retained earnings reduced to \$404,326.

| | <u>\$ 581,659</u> | <u>\$ 115,043</u> | <u>\$ 466,616</u> | <u>\$ 221,440</u> |

6. NOTES PAYABLE

Notes payable consist of:

| | 1978 | 1977 |
|--|----------------------|---------------------|
| Series "A" Promissory Notes due July 1, 1979, 9.5% interest payable September 15 and March 15 | \$ 2,600,000 | \$ 2,600,000 |
| 8.4% Promissory Note payable to the Minister of Finance, Government of the Province of British Columbia, due March 31, 1979 | 20,000,000 | |
| | <u>\$ 22,600,000</u> | <u>\$ 2,600,000</u> |

7. CONTINGENT LIABILITIES

The Corporation is contingently liable in the amount of \$5,169,100 (1977 - \$3,473,000) as guarantor of indebtedness of industrial enterprises.

8. OTHER

a) Commitments

The Corporation has entered into lease agreements for office premises with annual rentals of \$89,961 plus charges and tax escalation; subject to renegotiation in 1979.

b) Anti-Inflation Act

The Corporation is subject to the compensation provisions of the Anti-Inflation guidelines. It is the opinion of management that the Corporation has complied with these guidelines.

AUDITORS' REPORT

To the Lieutenant-Governor in Council,
Province of British Columbia;

We have examined the balance sheet of British Columbia Ferry Corporation as at March 31, 1978 and the statements of operations, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, except for the effect of the adjustments which would be required if legislative amendments are made as described in Note 2 to the financial statements, these financial statements present fairly the financial position of the Corporation as at March 31, 1978, the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in accounting for fixed assets, sinking fund investments and long term debt referred to in Notes 1 and 2 to the financial statements, on a basis consistent with that of the preceding period.

BRITISH COLUMBIA FERRY CORPORATION

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Summary of accounting policies:

Inventories-

Inventories comprise principally repair and maintenance parts and operating supplies and are valued at the lower of cost and current replacement cost.

Fixed assets-

(a) Acquired from the Province of British Columbia effective January 1, 1977:

(i) Vessels-

Vessels which comprise part of the total assets acquired from the Province effective January 1, 1977 by Order-In-Council dated December 16, 1976 and transferred at an assigned value of \$1 have been re-valued by the Corporation and are reflected in the accompanying financial statements at their estimated depreciated replacement value as at January 1, 1977 exclusive of any federal ship building subsidies which may have been available during the extended period of years during which the individual vessels were built and during which such subsidies fluctuated substantially. The estimated depreciated replacement value of the vessels at January 1, 1977 is not intended to reflect fair market value of the fleet nor can it be considered to approximate fair market value due to the specialist nature and limited saleability of the vessels themselves.

In addition, three vessels presently under charter by the Province until 1994 are sub-chartered to the Corporation for the same period at an annual cost of \$1 each; the Corporation being responsible for all operating, repair and maintenance costs. Under the terms of the sub-charter agreement with the Province, the Corporation may in 1994 request that the Province

exercise its option to purchase these vessels at its own expense in accordance with the terms of its charter agreement. In the event that such option is exercised, clear title to the vessels will be transferred to the Corporation. As a result of these transactions and agreements these vessels are reflected as capital assets of the Corporation in the accompanying financial statements and are similarly stated at their estimated depreciated replacement value as at January 1, 1977.

- (ii) Buildings, shore installations and equipment and marine installations-

These assets also comprise part of the total assets acquired from the Province effective January 1, 1977 by Order-In-Council dated December 16, 1976 and transferred at an assigned value of \$1.

These assets are reflected in the accompanying financial statements at their estimated depreciated replacement value as at January 1, 1977 based upon an appraisal made by Universal Appraisal Company Limited as at that date.

- (b) Transactions subsequent to January 1, 1977:

The costs of major additions, replacements, extensions and improvements are capitalized in the fixed asset accounts. The costs of maintenance, repairs, minor renewals or replacements are charged against income. On retirement or disposal of fixed assets the costs thereof and the related accumulated depreciation are eliminated from the accounts and any gains or losses are reflected in the statement of operations.

Excess of appraised value of fixed assets over
assigned value on acquisition January 1, 1977-

Annual transfers to retained earnings are based upon realization of appreciation through sales, and depreciation provisions with respect to those assets acquired from the Province of British Columbia as at January 1, 1977.

Depreciation-

Fixed assets are depreciated on the straight-line method based upon the following estimated useful lives:

| | |
|--|--------------|
| Vessels | 25 years |
| Buildings, shore installations and equipment | 4 - 25 years |
| Marine installations | 5 - 10 years |

2. Sinking funds and long-term debt:

Effective January 1, 1977 and pursuant to the British Columbia Ferry Corporation Act, all the liabilities of the British Columbia Ferry Authority in respect of the payment of the principal and interest on the outstanding bonds and debentures of the British Columbia Ferry Authority were assumed by the Corporation, and all money and investments in or forming part of the sinking fund established for repayment of those bonds and debentures were transferred to and vested in the Corporation.

This sinking fund is reflected in the accompanying balance sheet at its market value as at January 1, 1977 and the difference between that value and the principal amount of the long-term debt outstanding as at January 1, 1977 is shown as contributed surplus under shareholder's equity.

The outstanding bonds and debentures as at March 31, 1978 are as follows:

| <u>Series</u> | <u>Principal</u> | <u>Rate</u> | <u>Due Date</u> | <u>Due Within One Year</u> |
|---------------|-------------------|-------------|------------------|--------------------------------|
| D | Cdn. \$10,000,000 | 5.00% | October 15, 1982 | Cdn. \$ - |
| F | U.S. \$ 8,685,000 | 5.00% | November 1, 1982 | U.S. \$1,572,000 |

The Canadian dollar equivalent has been expressed at the exchange rate prevailing at January 1, 1977. If translated at the exchange rate prevailing at March 31, 1978, the Canadian dollar equivalent of this debt, after deducting the installment due within one year, would be increased by approximately \$930,000.

The Province unconditionally guarantees the payment of principal and interest on these bonds and debentures and will pay out of its Consolidated Revenue Fund such sums as may be required to discharge those liabilities in the event that the sinking fund assets are insufficient for that purpose.

The Corporation is considering a request from the Minister of Finance, Province of British Columbia, to instruct legislative counsel to draft amendments to the British Columbia Ferry Corporation Act appointing the Minister of Finance as trustee in respect of the sinking fund assumed from the British Columbia Ferry Authority and providing for payment to the Province of any surplus remaining in the fund on discharge of the long-term debt assumed from the British Columbia Ferry Authority. If the legislation is amended to be effective from January 1, 1977, the date the Corporation commenced operations, the effect on the accounts of the Corporation would be as follows:

| | |
|---|-------------|
| Net income for the year ended March 31, 1978 would have been | \$ 758,348 |
| (3 month period ended March 31, 1977 - loss \$4,586,634) | |
| Shareholder's equity at March 31, 1978 would have been | 251,695,023 |
| (3 month period ended March 31, 1977 - \$250,936,675) | |

and the amount by which the sinking fund assets exceed the related long-term debt (sinking fund surplus) would have been recorded as a debt due to the Province of British Columbia.

Classified under sinking funds on the accompanying balance sheet is also an amount of \$750,000 being a portion of the short-term investments held at March 31, 1978 which the Corporation intends to establish as a separate fund with respect to self-insurance provisions.

3. Comparative figures:

Comparative figures for the period January 1 to March 31, 1977 have been restated to give retroactive effect to the revaluation of fixed assets and adoption of the related policy for depreciation and recognition in the financial statements of the long-term debt obligations and related sinking fund investments.

Notes
Page 5

Retained earnings at March 31, 1977 have been restated from those previously reported to reflect the following retroactive credits and charges resulting from the changes described in the preceding paragraph as follows:

| | | |
|---|------------------|-------------------|
| Sinking fund investment income | | \$ 835,136 |
| Gain on disposals of sinking fund investments | | 167,052 |
| Transfer from appraised value of fixed assets over assigned value on acquisition January 1, 1977 of amount realized through depreciation provisions | | <u>4,586,634</u> |
| | | 5,588,822 |
| Long-term debt interest | \$ 422,612 | |
| Depreciation | <u>4,586,634</u> | |
| | | <u>5,009,246</u> |
| | | <u>\$ 579,576</u> |

4. Self-insurance fund:

The Province of British Columbia maintains an Insurance Reserve Fund which amounted to approximately \$4,000,000 as at March 31, 1978 to cover any major loss in excess of \$100,000 of a hull and machinery nature to any vessel operated by either the Ministry of Highways or the Corporation. Any loss or combination of losses in excess of the total of the Insurance Reserve Fund is the responsibility of the Corporation. In addition, the Corporation purchased insurance coverage on vessels, terminals, maintenance facilities and inventories during the year and provided a further \$500,000 by way of self-insurance.

The Provincial Insurance Reserve Fund will not be available to the Corporation after June 30, 1978 and it is the Corporation's intention to make further provisions in future years sufficient enough to cover changes in deductible amounts based upon revisions to its insurance coverage.

5. Commitments:

At March 31, 1978 contractual commitments for capital expenditures amounted to approximately \$8,600,000. Of this amount \$5,500,000 relates to the

unexpended portion of a contract in progress to remove existing engines and install new engines in two of the Corporation's vessels.

6. Sick leave liability:

Under the terms of its employment agreement in force as at January 1, 1977 the Corporation was obligated to its employees for accumulated sick leave time entitlements in the amount of approximately \$10,200,000 at March 31, 1978 calculated at pay rates in effect at that date (January 1, 1977 \$9,100,000).

Upon retirement employees are entitled to draw in cash one-half of sick leave time entitlements not utilized during their period of employment prior to retirement.

As at March 31, 1978, the impact of terminations prior to retirement, future utilization of sick leave entitlements, pay rate increases, and potential changes to employee disability plans have not been actuarially evaluated and in consequence the amount to be provided to meet these unfunded obligations of future years cannot reasonably be determined with any degree of accuracy. Retirement payments under the agreement are estimated to be \$115,000 in the year ending March 31, 1979.

7. Highway equivalent subsidy:

The amount of the subsidy received by the Corporation from the Province of British Columbia is substantially equivalent to the aggregate of the annual cost of maintaining, and the annual amortization of the capital cost of, a two-lane highway built through difficult terrain in the coastal region and of a length equal to that of the ferry routes operated by the Corporation.

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia Harbours Board, and

To the Premier of British Columbia and
Minister of Energy, Transport and Communications:

I have examined the statement of financial position of the British Columbia Harbours Board as at 31 March 1978 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at 31 March 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

Erma Morrison, C.A.

BRITISH COLUMBIA HARBOURS BOARDNOTES TO THE FINANCIAL STATEMENTSas at March 31, 1978

Note 1 Significant Accounting Policies

- A. Land, buildings, equipment and railway are valued at cost to the Board plus grants in aid of construction, less proceeds from granting easements through Board land in the amount of \$522,360. During the fiscal year ended March 31, 1974 management transferred \$597,938 to land from buildings.
- B. In 1974 the Crown in the right of the Province granted the Board approximately 3,500 acres of land below high water in the Roberts Bank area. The portion of this land which is used for railway right-of-way was valued by management at \$1,277,000 and recorded in the railway and grants in aid of construction accounts.
- C. Prior to April 1, 1973 depreciation was not charged against buildings and equipment because acquisition of these assets was considered incidental to the cost of land. Commencing April 1, 1973 depreciation has been computed at 10% of the diminishing balance.
- D. By agreement between the Board and the users of its railway, users are responsible for costs of maintaining, renewing and replacing trackage as required. In the case of abandonment the users are to compensate the Board in full, including land costs, for sections abandoned. Accordingly no provision for depreciation has been made in respect of the railway.
- E. The Board's railway is managed under contract by British Columbia Railway Company which is responsible for maintaining the right-of-way and for billing user railways for costs and rent on behalf of the Board.
- F. Advances due to the Province of British Columbia are to be repaid from funds declared by the Board to be surplus to its requirements. Effective from April 1, 1976 the Board is not required to pay interest on these advances.

Note 2 In 1976 the British Columbia Court of Appeal handed down its decision in the matter of Section 3 of the Constitutional Questions Determination Act RSBC 1960, Chapter 72, confirming the Province's ownership of the bed of the Strait of Georgia and related areas as set out in Order-in-Council number 3459 dated October 31, 1974. This Appeal Court decision confirms that the Crown in the right of the Province had authority to transfer to the Board about 1,700 acres of land below low water, bringing the Board's total land holdings in the Roberts Bank area below high water up to 3,500 acres. This area is capable of development for harbour and industrial purposes and contains the causeway, a portion of the railway (see note 1B above) and Roberts Bank Superport. The Government of Canada has filed a notice of appeal in the Supreme Court of Canada on the decision of the British Columbia Court of Appeal; a date has not been set to hear this appeal in the Supreme Court of Canada.

BRITISH COLUMBIA HARBOURS BOARD
NOTES TO THE FINANCIAL STATEMENTS
as at March 31, 1978

continued

ote 3 Adjustments to prior years income

| | |
|---|-------------|
| Charges to user railways for underbilling of privilege charges for the period April 1, 1970 to March 31, 1977 | \$136,345 |
| Less: Accrual for deferred vacation as at March 31, 1977 | 51,790 |
| | <hr/> |
| | \$ 84,555 |
| | <hr/> <hr/> |

ote 4 Accounts receivable include \$500,000 which a debtor is disputing. Legal opinion from the Board's solicitors concurs with the Board's evaluation that this amount is a proper claim against the debtor. Accordingly no provision for possible loss has been made.

BRITISH COLUMBIA HEALTH CARE RESEARCH FOUNDATIONAUDITOR'S REPORT

To the Members of
The British Columbia Health Care Research Foundation

I have examined the statement of receipts and disbursements of The British Columbia Health Care Research Foundation for the period from March 30, 1977 to March 31, 1978. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the statement of receipts and disbursements of The British Columbia Health Care Research Foundation present fairly the cash transactions and the resulting balance of cash on hand for the period March 30, 1977 to March 31, 1978.

AUDITORS' REPORT

To The Chairman,
British Columbia Housing
Management Commission,
Vancouver, B.C.

We have examined the combined balance sheet of the Province of British Columbia projects and programs managed by the British Columbia Housing Management Commission as at December 31, 1977 and the combined statements of amounts due from Central Mortgage and Housing Corporation and proprietor's account and revenue and expenditure for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances, except as explained in the following paragraph.

As discussed in note 1, the market value rent was, in the majority of cases, established by accredited appraisers. However, in many cases appraisals were not available and therefore the market value rent was determined internally by the Commission's staff and was not supported by independent appraisals. In these cases it was not practicable to verify rental supplement revenue. Adjustments, if any, which might have resulted from verification of rental supplement revenue could affect the combined results of operations.

- 2 -

In our opinion, except for the effect of any adjustments which might have been required had we been able to verify rental supplement revenue, these combined financial statements present fairly the combined financial position of the projects and programs as at December 31, 1977 and the combined results of their operations for the year then ended in accordance with generally accepted accounting principles which, except for the change in accounting for rental supplement revenue explained in note 2(a), have been applied on a basis consistent with that of the preceding year after giving retroactive effect to the change in accounting for shelter supplements explained in note 2(b) to the financial statements.

Vancouver, Canada,
May 18, 1978.

PROVINCE OF BRITISH COLUMBIAPROJECTS AND PROGRAMSMANAGED BY THEBRITISH COLUMBIA HOUSING MANAGEMENT COMMISSIONNOTES TO THE COMBINED FINANCIAL STATEMENTSDECEMBER 31, 19771. Significant accounting policiesa) Basis of financial statement presentation:

These financial statements combine six separate financial statements of projects and programs operated by the Province of British Columbia (Ministry of Municipal Affairs and Housing) and managed by the British Columbia Housing Management Commission, each of which has its own subsidy sharing agreement. The allocation of each of the subsidies is as follows:

| | <u>Subsidy Share</u> | |
|--|---|---|
| | <u>Central Mortgage and Housing Corporation</u> | <u>Province of British Columbia</u> |
| N.H.A. Section 40 properties | 75% | 25% |
| N.H.A. Section 40 (Prince Rupert property) | 75% | 25% |
| N.H.A. Section 44 properties | 50% | 50% |
| Wholly Provincial properties | | 100% |
| Rent Supplement Program - 41(1)(b) NHA | 60% | 40% |
| Assisted Rental Program - 41(1)(a) NHA | 50% | 50% |

- b) The statements do not reflect the capital cost of the projects, however a provision for amortization is accrued and payable in part to the Provincial Rental Housing Corporation and in part credited to Central Mortgage and Housing Corporation in lieu of depreciation and interest on capital costs. The provision for amortization is based on the annual payment that would be required to repay the principal and interest on the capital cost of the projects over a period of approximately fifty years.

- 2 -

c) Rental revenue:

Monthly rental rates for individuals renting units in the projects are determined on a basis whereby those residents pay up to 25% of their income or the market value rent, whichever is less.

The Province of British Columbia and Central Mortgage and Housing Corporation have agreed to supplement the rental revenue received by the Commission by absorbing the difference between the rent charged to tenants and the market value rent.

In 1977 the Commission determined the market value rent from independent appraisals, in the majority of cases, and from area supervisors and managers in many cases.

In future it is the intention of the Commission to obtain independent appraisals on the market value rent in all cases.

Rental revenue includes rental supplements determined on the above basis (see note 2(a)).

2. Accounting changes

- a) During the year the basis of accounting for rental revenue was changed so that the difference between the market rents and the amounts charged to tenants is disclosed as rental supplement revenue. As a result of the change, the excess of revenue over expenditure for the year ended December 31, 1977 was increased by \$11,086,129. The change did not affect the amount due from Central Mortgage and Housing Corporation or the proprietor's account at December 31, 1977 and was not applied retroactively.

- 3 -

b) During the year the basis of accounting for shelter supplements recoverable by the Commission from the participants was retroactively changed to exclude the supplements from program expenditure. As a result of the change the excess of expenditure over revenue for the periods ended December 31, 1976 and 1977 was decreased by \$1,776,200 and \$3,243,125 respectively. The change did not affect the amount due from Central Mortgage and Housing Corporation or the proprietor's account at December 31, 1976 and 1977 (see note 4).

3. Prior period adjustments

The opening balance of amounts due from Central Mortgage and Housing Corporation and the proprietor's account has been restated by \$280,831 and amortization expense and administration expense for 1976 have been increased by \$206,468 and \$17,972 respectively to reflect retroactive adjustments as follows:

- 4 -

| | Central Mortgage and Housing Corporation | Proprietor's Account | Total |
|--|---|-------------------------|------------------|
| Adjustments in respect of amortization charges: | | | |
| - adjustment to the calculation of the amortization provision | | | |
| - re: 1975 | \$ 46,168 | \$ 46,167 | \$ 92,335 |
| - re: 1976 | <u>103,234</u> | <u>103,234</u> | <u>206,468</u> |
| | <u>149,402</u> | <u>149,401</u> | <u>298,803</u> |
| - reversal of adjustment of amortization provision recorded in the 1976 statements | | | |
| - re: 1975 | 46,087 | (46,087) | |
| - re: 1976 | <u>16,986</u> | <u>(16,986)</u> | |
| | <u>63,073</u> | <u>(63,073)</u> | |
| Total adjustments in respect of amortization charges | 212,475 | 86,328 | 298,803 |
| Adjustment representing the proprietor's share of a 1975 rent supplement originally charged to Central Mortgage and Housing Corporation | (2,515) | 2,515 | |
| Adjustment of costs recovered in 1977 which were erroneously recorded in 1976 as an admini- strative expense in connection with the Orchard Park redevelop- ment, a project under Section 40 of the National Housing Act | (13,479) | (4,493) | (17,972) |
| Total prior period adjustments | <u>\$196,481</u> | <u>\$ 84,350</u> | <u>\$280,831</u> |

- 5 -

4. Shelter supplements

The Rent Supplement Program, Section 44(1)(b) NHA, provides supplements to non-profit societies which are designated as eligible to receive monthly payments for subsidy assistance. These payments represent the difference between the full recovery rents as approved by Central Mortgage and Housing Corporation and the actual rental revenue resulting from tenants paying up to 25% of their income or the market value rent, whichever is less. Shelter supplements under this program amounted to \$2,638,581 for the year ended December 31, 1977.

The Assisted Rental Program, Section 44(1)(a) NHA, provides supplements for up to 25% of the low income occupants of Assisted Rental Program buildings so that those residents pay up to 25% of their income or the market value rent, whichever is less. Shelter supplements under this program amounted to \$604,544 for the year ended December 31, 1977.

5. Grants in lieu of taxes

The Province of British Columbia pays to the municipalities a sum equivalent to property taxes in lieu of such taxes and this sum is not subject to relief by grant.

6. Comparative figures

The comparative figures have been reclassified to conform with the presentation adopted in 1977. The reclassification includes separate disclosure of accrued amortization payable to the Provincial Rental Housing Corporation which had previously been grouped with the proprietor's account.

REPORT OF THE AUDITORS

The Lieutenant-Governor in Council,
Province of British Columbia:

We have examined the balance sheet of British Columbia Hydro and Power Authority as at 31 March 1978, and the statements of income, earnings retained in the business and changes in financial position for the year then ended and the statement of long-term debt as at 31 March 1978. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at 31 March 1978 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITYNOTES TO FINANCIAL STATEMENTS
AS AT 31 MARCH 1978

1. Significant accounting policies:

The accounting policies of B.C. Hydro conform to accounting principles generally accepted in Canada for public utilities. A description of significant accounting policies follows.

Fixed assets and depreciation-

Fixed assets consist principally of land, franchises, water rights, storage dams, plants for the generation, transmission and distribution of electricity and gas, trolley coaches, motor buses, freight railway and rolling stock.

Fixed assets include the cost of plant financed by contributions in aid of construction and contributions arising from the Columbia River Treaty. Contributions in aid of construction, which include grants for rural electrification from the Government of the Province of British Columbia and amounts paid by customers towards construction of plant, are being amortized over the estimated service lives of the related assets, and the credit resulting therefrom is offset against the corresponding provision for depreciation. Contributions arising from the Columbia River Treaty are being amortized over the remaining term of the Treaty, which expires in 2025, and the credit resulting therefrom is offset against and is equal to the annual provision for depreciation of the related assets.

The difference between the construction costs associated with the Columbia River Treaty storage projects and the total contributions arising from the Columbia River Treaty, which is considered to relate to generation of power at Mica, and construction costs of the powerhouse and other common property relating to the Mica generating plant have been transferred to fixed assets in service by instalments proportionate to the number of completed and operational units in relation to the four units presently installed at Mica. By 31 March 1977, three units were in service, and therefore, 75% of the above-mentioned assets had been transferred to fixed assets in service. The fourth unit was installed and placed in operation during the year ended 31 March 1978, and consequently, the remaining 25% of the above-mentioned costs was transferred from deferred costs to fixed assets in service.

1. Significant accounting policies continued:

Fixed assets and depreciation continued-

B.C. Hydro charges interest to unfinished construction and to deferred costs of fixed assets at rates equivalent to the cost of borrowing funds.

The depreciation policy of B.C. Hydro is to charge the original cost of fixed assets to income over the estimated service lives of the assets. Depreciation is provided on all depreciable assets in service at the beginning of each year and is computed on the straight-line method.

Non-owned equipment-

Approximately 34% (33% at 31 March 1977) of the buses and trolley coaches operated and maintained by B.C. Hydro, as well as the two Burrard Inlet ferries and associated terminals, are provided by the Provincial Government without charge.

Insurance-

B.C. Hydro generally follows a policy of self-insurance for damage to plant and equipment and for general liability, and any losses incurred are charged to income. An insurance fund of \$5,000,000, invested in government and municipal bonds and short-term deposits with financial institutions, is maintained to provide funding for uninsured losses up to that amount. To protect against losses in excess of \$5,000,000, B.C. Hydro carries catastrophe insurance which provides coverage up to \$100,000,000.

Insurance coverage on major projects under construction is purchased either by B.C. Hydro or by its contractors as required by B.C. Hydro. Fire insurance coverage on certain plant and equipment is also purchased to comply with trust deed requirements. Motor buses, trolley coaches, service vehicles and the Burrard Inlet ferries are insured for public liability.

Unamortized discount and expense on debt-

These costs are amortized by charges to income over the life of the respective issues.

Rural electrification assistance grant-

B.C. Hydro receives an annual grant of \$3,000,000 from the Provincial Government for rural electrification assistance. These funds are used to offset operating losses of electric systems purchased or constructed in isolated areas with such funds and to improve and extend electric service in rural areas.

1. Significant accounting policies continued:

Foreign exchange-

The liability for long-term debt payable in United States dollars is translated to Canadian dollars at the rates of exchange prevailing at the date the debt was incurred. Translated at the rates prevailing at 31 March 1978, the liability for long-term debt payable in United States dollars would have been increased by approximately \$174,000,000. Current assets and current liabilities in United States dollars, including long-term debt payable within one year, are translated at the rate of exchange prevailing at the date of the balance sheet except for those amounts covered by forward sales of United States dollars, in which case contracted rates are used. Foreign exchange adjustments are included in income.

2. Temporary investments:

| | <u>1978</u> | <u>1977</u> |
|--|------------------|------------------|
| | (in thousands) | |
| Deposits with banks and other financial institutions | \$330,650 | \$252,522 |
| Notes of banks and other financial institutions | 177,861 | 39,273 |
| Bonds held for sinking fund | <u>6,121</u> | <u>2,796</u> |
| | <u>\$514,632</u> | <u>\$294,591</u> |

3. Payment in respect of litigation:

A lawsuit was started on 17 July 1967 in the Supreme Court of British Columbia by the contractors constructing the underground powerhouse and associated works at Gordon M. Shrum Generating Station, alleging breach of contract. Amounts between \$20,000,000 and \$30,000,000 were claimed as damages. During the trial, the contractors introduced an alternative claim to which they gave priority for the total cost to them of the construction work, including interest and profit, and a balance owing of \$51,000,000 was claimed. The alternative claim was tried and judgment delivered, declaring the contractors to be entitled to compensation on the basis of quantum meruit. In a judgment delivered 13 November 1975, the compensation on the basis of quantum meruit was determined by the Trial Judge to be \$36,124,000 and this amount together with costs was awarded to the Plaintiffs. On 3 March 1976, payment into Court was made in the sum of \$36,500,000, including interest from 13 November 1975 to 28 January 1976. By order of

3. Payment in respect of litigation continued:

Court at that time, this amount might have been paid to the contractors upon deposit of a bond satisfactory to the Court. A Notice of Appeal from the judgment was filed on 20 November 1975, submitting that the judgment was in error both in law and fact as to there being a fundamental breach of contract by B.C. Hydro and in the award to the Plaintiffs upon the basis of quantum meruit. The contractors filed a Notice of Cross-Appeal in which the entire amount of \$51,000,000 was claimed. The Appeals were heard in the latter part of 1977; the Appeal by B.C. Hydro was allowed, and the Cross-Appeal by the contractors was dismissed. Unless there is a further appeal to the Supreme Court of Canada, the litigation is referred back to the Trial Judge for assessment of damages suffered by the contractors. The amount of the final judgment or any settlement by B.C. Hydro as a result of this litigation will be capitalized as part of the cost of construction and included in fixed assets.

4. Guarantee by Province of British Columbia:

The Government of the Province of British Columbia has unconditionally guaranteed the principal of and premium, if any, and interest on the long-term debt and Parity Development Bonds.

5. Parity Development Bonds:

| | <u>1978</u> | <u>1977</u> |
|---------------------------------------|-----------------|------------------|
| | (in thousands) | |
| 8-1/2% Series CS due 15 August 1977 | \$ - | \$ 25,000 |
| 8-1/2% Series CY due 3 August 1978 | 25,000 | 25,000 |
| 8-1/2% Series DP due 1 September 1979 | 25,000 | 25,000 |
| 8-1/2% Series EA due 1 September 1980 | <u>25,000</u> | <u>25,000</u> |
| | <u>\$75,000</u> | <u>\$100,000</u> |

6. Pension plans:

Employees of B.C. Hydro are covered under contributory pension plans, and provisions are being made for current service according to the requirements of the various plans.

B.C. Hydro is funding the estimated past service costs of a contributory plan introduced effective 1 January 1965 by equal annual payments of \$394,000 over a period of 15 years which commenced 1 April 1967. An actuarial report

6. Pension plans continued:

dated 1 December 1975 indicated an evaluated accrued deficit in this plan of \$41,057,000 as at 31 December 1974, largely resulting from changes in the plan. This deficit is in addition to past service costs referred to above and is being funded by equal annual payments of \$3,061,000 over a period of 25 years which commenced with the year ended 31 March 1976. The latest actuarial report, dated 28 April 1978, which was based on revised assumptions respecting rates of inflation, increases in pay, return on investments and early retirements to make them more representative of current expectations and prior experience than those used in earlier actuarial evaluations, reflects an increase in pension benefits from 1 July 1975 and an increase of 1% in the rate of contribution, shared equally by B.C. Hydro and employees, that was implemented 1 September 1976. This report indicated an additional evaluated accrued deficit of approximately \$3,000,000 as at 31 December 1976, relating principally to indexed supplements to be paid to existing pensioners. The additional deficit in the plan is estimated to be approximately \$6,000,000 as at 31 March 1978.

The charge to income in respect of pension plans, including provision for supplementary payments and B.C. Hydro's share of Canada Pension Plan costs, for the year ended 31 March 1978 was \$14,930,000 (1977 - \$13,683,000).

7. Sales of surplus electricity to the United States:

Gross revenues for the year ended 31 March 1978 include \$77,700,000 from sales of surplus electricity to the United States (1977 - \$22,600,000).

8. Interest:

| | 1978 | 1977 |
|--|------------------|------------------|
| | (in thousands) | |
| Interest on debt | \$366,126 | \$292,379 |
| Amortization of discount and expense | 2,419 | 2,164 |
| Interest charged to construction | <u>(50,472)</u> | <u>(71,459)</u> |
| | 318,073 | 223,084 |
| Less: | | |
| Income from sinking fund investments held by Trustee | 20,102 | 15,581 |
| Income from temporary investments | <u>33,763</u> | <u>18,571</u> |
| | 53,865 | 34,152 |
| | <u>\$264,208</u> | <u>\$188,932</u> |

9. Provincial Government special subsidy:

In March 1977, B.C. Hydro received a special subsidy of \$32,600,000 from the Provincial Government towards the passenger transportation loss for the year ended 31 March 1977. No special subsidy was received by B.C. Hydro during the year ended 31 March 1978.

10. Deferred costs of generation:

In the year ended 31 March 1977, deferred costs of generation, in the amount of \$7,473,000, was charged to income (included in "Materials and services" in the statement of income and in "Other" in the statement of changes in financial position).

11. Commitments and contingencies:

Purchase commitments and contracts of B.C. Hydro for capital projects (including the estimated legal costs payable to the Plaintiffs with respect to the litigation referred to in Note 3 above) aggregated approximately \$540,000,000 as at 31 March 1978.

12. Segment information for the year ended
31 March 1978 (in millions):

| | <u>Electric</u> | <u>Gas</u> |

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1978

1. SIGNIFICANT ACCOUNTING POLICIES:

- a) Revenues and expenses are reflected on an accrual basis.
- b) Merchandise inventory is valued at its latest landed cost. Customs and excise taxes are not included in the value of inventory where payment is due upon shipment from the bonded warehouse.
- c) Expenditures for buildings, leasehold improvements, furniture, fixtures, and equipment are capitalized and are subject to depreciation on a straight line basis as follows:

| | |
|--------------------------------------|--|
| Buildings | - 7 1/2% per annum |
| Leasehold Improvements | - a minimum of 10% per annum or a rate sufficient to write off the cost over the remain- ing life of the respective lease. |
| Furniture, fixtures and equipment | - 25% per annum |

2. CHANGES IN ACCOUNTING POLICY:

- a) In September, 1977, a new procedure was implemented for Domestic Beer delivered directly to Licensed Establishments by Pacific Brewers Distributors Ltd. Commencing September 6, 1977 the domestic Brewers' wholesale distributor was authorized to accept orders and payment from Licensees within prescribed guidelines. During the year ended March 31, 1978 Pacific Brewers Distributors Ltd. recorded sales to Licensed Establishments amounting to \$37,051,208. Had these sales, as in prior years, been reflected in the Statement of Income, the total sales figure would have been \$524,107,451. Income was maintained by instituting a Provincial Malt Levy based on established mark-up of domestic malt products.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1978

2. CHANGES IN ACCOUNTING POLICY (cont'd.)

- b) In-Transit merchandise ordered from foreign suppliers amounting to \$5,031,041. has been included as inventory as at March 31, 1978. This merchandise became the property of the Liquor Distribution Branch on loading at the port of embarkation. A comparable amount at March 31, 1977 cannot be determined. This change does not affect the Statement of Income in either 1978 or 1977.

| 3. FIXED ASSETS: | <u>1978</u> | | <u>1977</u> | |
|-----------------------------------|--------------------|---------------------------------|--------------------|---------------------------------|
| | <u>Cost</u> | <u>Accumulated Depreciation</u> | <u>Cost</u> | <u>Accumulated Depreciation</u> |
| Land | \$ 450,752 | \$ - | \$ 450,752 | \$ - |
| Buildings | 4,461,352 | 3,836,779 | 4,457,500 | 3,586,442 |
| Leasehold Improvements | 31,519 | 6,352 | 42,359 | 3,402 |
| Furniture, fixtures and equipment | <u>3,289,186</u> | <u>2,855,374</u> | <u>3,052,258</u> | <u>2,575,045</u> |
| | <u>8,232,809</u> | <u>\$6,698,505</u> | <u>8,002,869</u> | <u>\$6,164,889</u> |
| NET BOOK VALUE | <u>\$1,534,304</u> | | <u>\$1,837,980</u> | |

4. SALES:

Included in sales are non-alcoholic items amounting to \$786,371 (1977 - \$743,684).

5. LIQUOR CONTROL AND LICENSING BRANCH:

The 1977 Financial Statements included Income and Expenses of the Liquor Control and Licensing Branch to March 31, 1977. With the proclamation of the Liquor Control and Licensing Act, S.B.C. 1975, chapter 38 assented to June 26, 1975 which took effect on December 31, 1976, the Income and Expenses of the Liquor Control and Licensing Branch for the fiscal year ended March 31, 1978 are, and in future will be, reported in the Public Accounts, Ministry of Consumer and Corporate Affairs.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1978

6. COMMITMENTS:

- a) Employees of the Branch contribute to the Public Service Superannuation Fund 6% of their salaries for basic pension purposes, plus 1/2% of salaries for cost-of-living indexed increases in pension benefits. The contributions shown in Schedule 1 include in addition to matching employee contributions, supplementary assessments paid by the Branch to fund any deficiency in pensions for employees who retired during the year. This supplementary assessment was \$1,210,423. in 1978 (\$483,191. - 1977).

An actuarial evaluation of the Public Service Superannuation Fund was made at March 31, 1977. Details of the unfunded liability are described in the Public Accounts of British Columbia. The portion of the unfunded liability attributable to the Liquor Distribution Branch was not determined by the actuary.

- b) The Branch maintains inventory in its bonded warehouse for which Customs and excise tax has neither been paid nor recorded. As at March 31, 1978 the future liability for these taxes approximate \$8,000,000.
- c) Total commitments to March 31, 1978 for lease of premises amount to \$18,617,000. Of this total \$2,741,000. becomes payable during the year ending March 31, 1979.

7. COMPARATIVE FIGURES:

Certain of the 1977 figures provided for purposes of comparison have been restated to conform with the classifications used in the current year. These changes have had no effect on the net earnings.

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the balance sheet of British Columbia Petroleum Corporation as at March 31, 1978 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Petroleum Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA PETROLEUM CORPORATION

NOTES TO FINANCIAL STATEMENTS

March 31, 1978

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Gas Sales

Under the terms of an agreement between Westcoast Transmission Company Limited and British Columbia Petroleum Corporation effective November 1, 1973, the Corporation sells natural gas to Westcoast Transmission Company Limited at a price equal to the gross revenue received by that Company on the resale thereof less the total cost of service of that Company's utility system operation.

Depreciation

Furniture, equipment, automobiles and leasehold improvements are recorded at cost and depreciation is provided at rates considered adequate to amortize the cost over the service lives of the assets. Depreciation is computed on a straight-line basis.

NOTE 2 ADVANCES FOR EXPLORATION AND GAS DEVELOPMENT

Advances for exploration and gas development represent funds advanced to develop gas production. These advances are secured on property of the developer and are repayable out of future related production. Where repayment is not anticipated within twelve months, such advances are shown under "Other assets".

NOTE 3 PROPERTY ACCOUNT

| | <u>Cost</u> | <u>Accumulated Depreciation & Amortization</u> | <u>1978 Net Book Value</u> | <u>1977 Net Book Value</u> |
|---------------------------|-------------------|--|------------------------------------|------------------------------------|
| Land | \$ - | \$ - | \$ - | \$ 4,724,992 |
| Furniture | 166,380 | 22,439 | 143,941 | 151,294 |
| Automobiles | 31,575 | 8,862 | 22,713 | 17,409 |
| Leasehold improvements | <u>250,096</u> | <u>35,429</u> | <u>214,667</u> | <u>230,889</u> |
| | <u>\$ 448,051</u> | <u>\$ 66,730</u> | <u>\$ 381,321</u> | <u>\$ 5,124,584</u> |

NOTE 4 GAS CREDITS PAYABLE

During the two years ended November 1, 1977, a portion of the price (15¢ per Mcf) payable by the Corporation for each Mcf of natural gas delivered from pools producing prior to November 14, 1973 was in the form of a credit which may be converted to cash within three years by a holder thereof expending the equivalent of 20¢ per Mcf in exploration and development work within the Province of British Columbia. Effective November 1, 1977 the issuance of additional credits was suspended and the producer now receives the equivalent sum in cash as part of the old gas price.

NOTE 5 REMUNERATION OF DIRECTORS AND SENIOR OFFICERS

The aggregate remuneration paid to the directors and senior officers of the Corporation for the year ended March 31, 1978 amounted to \$ 189,836. (To March 31, 1977 - \$ 182,883).

- 3 -

NOTE 6 COMMITMENTS

- a) The Corporation has commitments under agreements for the lease of office premises extending to 1984. The aggregate rentals payable under these leases amount to approximately \$ 1,000,000 as at March 31, 1978.
- b) Under an exploration and development agreement the Corporation is committed to pay interest on certain advances, while they remain outstanding, made by a third party. As at March 31, 1978 interest paid by the Corporation amounted to \$ 847,615 and is included under "Advances for Exploration and Gas Development".

To the Lieutenant Governor in Council
Province of British Columbia

We have examined the balance sheet of British Columbia Railway Company as at December 30, 1977 and the statements of income and deficit and changes in financial position for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Railway as at December 30, 1977 and the results of its operations and the changes in its financial position for the fiscal year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year.

BRITISH COLUMBIA RAILWAY COMPANY

Notes to Financial Statements
December 30, 1977

1. Significant accounting policies

The accounting regulations prescribed by the Canadian Transport Commission for Canadian railways have been adopted to the extent that this is possible without submitting specific accounting policies and depreciation rates to the Commission for approval.

Road property

New construction is recorded at cost and abandoned or relocated sections are removed at average unit costs. Elements of track structure installed during planned programs are recorded at cost and the material released is removed from the asset accounts at the average unit cost. Labour costs for programmed replacements are expensed as incurred.

All costs of constructing extension lines are capitalized to the date the line is certified operational by the British Columbia Department of Transport and Communications. Capitalization of interest ceases and provision of depreciation commences on the date of certification.

Depreciation

Depreciation is provided for major categories of property and equipment on the straight-line basis at composite rates estimated to reduce the original cost to estimated salvage value over the average service lives of the classes. The group method is used for recording depreciation under which the original cost of assets retired less salvage value is charged against accumulated depreciation. No gain or loss on retirements, other than on accidental destruction of rolling stock and on disposal of land, is included in operations. The original cost of principal assets less estimated salvage value is depreciated over the following number of years:

| | <u>Number of Years</u> |
|-------------------------------|------------------------|
| Grades, surfacing and tunnels | 100 |
| Rails | 50 |
| Ties and ballast | 25 |
| Bridges | 65 |
| Locomotives and power units | 25 |
| Freight cars | 33 |

Repairs

Repairs and non-programmed replacements of track structure are charged against current operations. Betterments and major track relocations are capitalized.

- 2 -

Interest

Interest on borrowed funds used for construction of extension lines is included in the asset cost at rates approximating the borrowing rates on the funds employed.

Bond discount

Bond discount is deferred and amortized over the term of the issue to which it relates. Unamortized amounts related to debt retired are charged against operations in the year the debt is retired unless the debt is specifically refinanced in which case the remaining amount is amortized over the balance of the life of the original debt or the life of replacement debt if less.

Materials and supplies

Inventories of material and supplies are valued at the lower of average cost or net realizable value.

Income taxes

The Railway is exempt from Canadian federal and provincial income taxes.

Transactions in foreign currency

Transactions originating in United States currency are recorded at the approximate exchange rates prevailing at the dates of the transactions. Current assets and current liabilities have been translated to equivalent Canadian amounts at the rate of exchange in effect at the balance sheet date except for current maturities of long term debt which are recorded at historical rates which are not materially different from the current rate of exchange.

Fiscal year-end

The Railway's fiscal year ends on the Friday closest to December 31. The 1977 fiscal year ended on December 30, 1977 and the 1976 fiscal year ended on December 31, 1976; both comprised 52 weeks.

2. Dease Lake Extension, construction costs

During 1977 portions of the Dease Lake Extension line were certified operational and transferred to road property.

A pause in construction of the balance of the Dease Lake Extension was made effective on April 5, 1977. Costs of this portion of the extension have been removed from road property and are classified separately in the Balance Sheet; the related construction in progress for 1976 has been reclassified to conform with this presentation.

Construction costs of the Dease Lake Extension have been reduced by a grant of \$79,904,120 from the Government of the Province of British Columbia. Interest on funds used for this extension has been capitalized to the date construction was suspended. In the event the Dease Lake Extension is abandoned, the cost less any value recovered will be written off at that time.

- 3 -

3. Long-term debt

Long-term debt is not secured by assets of the Railway. Bonds issued by the Railway which are held in the sinking fund are not cancelled but for financial statement presentation have been deducted from the amounts shown as outstanding. As of December 30, 1977 the principal amount of such bonds held in the sinking fund aggregated \$33,364,970 (1976 - \$31,855,903).

Bonds totalling \$143,951,000 which are held by the Minister of Finance for Canada contain a provision whereby under certain circumstances they may be presented for redemption upon six months notice given to the Railway. A further \$48,387,000 of bonds are subject to redemption after 1979 at the option of either the holder or the Railway. The Railway also has the right under certain circumstances to redeem bonds at various dates, principally after 1982, aggregating \$435,575,000, in some cases at premiums up to 1%.

Interest and debt expense related to long-term debt has been reduced by interest charged to construction of \$3,594,432 (1976 - \$9,127,068), sinking fund earnings on investments other than bonds issued by British Columbia Railway Company totalling \$3,658,261 (1976 - \$3,318,604) and interest on temporary investment of long-term debt proceeds of \$4,380,064 (1976 - \$4,016,933).

Long-term debt outstanding, less current maturities, is as follows:

| | <u>1977</u> | <u>1976</u> |
|--|--------------------|--------------------|
| Sinking fund bonds | | |
| 1981-1985 - 3 1/4% to 5% | \$ 16,554,040 | 18,026,097 |
| 1986-1990 - 4 3/4% to 8 1/4% | 49,569,000 | 49,606,000 |
| 1991-1995 - 4.5% to 8.92% | 143,340,250 | 143,340,250 |
| 1996-2000 - 7.08% to 10.5% | 336,834,000 | 304,834,000 |
| 2001-2005 - 9.05% to 10.4% | <u>155,000,000</u> | <u>125,000,000</u> |
| | 701,297,290 | 640,806,347 |
| Less sinking fund assets net of Railway's own bonds held | <u>51,553,311</u> | <u>40,096,933</u> |
| | 649,743,979 | 600,709,414 |
| Serial Bonds | | |
| 4 7/8% - due 1988 | 1,894,242 | 2,027,194 |
| Notes payable to bank | | |
| Due on demand with repayment required at varying dates to July 1978, with interest at bank prime rate (8 1/2% at December 30, 1977) | <u>6,350,000</u> | <u>17,806,000</u> |
| | 657,988,221 | 620,542,608 |
| Deduct current obligations on long-term debt | <u>14,871,261</u> | <u>18,987,171</u> |
| | \$ 643,116,960 | 601,555,437 |

Reduce 80%

- 4 -

Long-term debt retirements and sinking fund provisions for the four fiscal years ending with 1982 are \$8,528,804, \$9,366,305, \$10,082,721 and \$9,827,473.

Included in the above long-term debt outstanding at December 30, 1977 are obligations having a par value of \$14,881,000 payable in United States currency which have been translated at the rates of exchange prevailing at the dates of issue and are recorded in Canadian funds at \$15,705,000. The Canadian equivalent of these obligations at December 30, 1977 is approximately \$16,250,000.

The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt.

4. Share capital

Authorized share capital is 2,105,729 shares of \$100 each of which 1,855,729 shares are outstanding and held by the Government of the Province of British Columbia.

5. Commitments

The Railway has significant lease commitments for rolling stock and additional minor lease commitments for equipment and real estate which expire during varying periods to 1992. Annual payments under long-term lease contracts for the fiscal year ended December 30, 1977 were \$6,242,000 (1976 - \$6,098,000). The minimum average annual lease payments under existing leases at December 30, 1977 are as follows:

| | |
|-----------|--------------|
| 1978-1982 | \$ 3,602,000 |
| 1983-1987 | 741,000 |
| 1988-1992 | 104,000 |

6. Contingent liabilities

The Railway has been advised by certain Indian band representatives of their intention to claim for damages in connection with construction of a rail line over reserve lands. Any payments made in settlement of such claims should not be material and would be accounted for as part of the cost of the total road property.

Three contractors have commenced actions against the Railway to recover losses and other damages for specific claims in the aggregate amount of approximately \$11,000,000 together with other unspecified amounts. The Railway has not provided for these claims in its accounts as in the opinion of counsel these claims should not succeed.

7. Pension plan commitment

The majority of employees participate in a contributory pension plan. Effective January 1, 1978, this plan was revised. Increased benefits under the revised plan have given rise to additional costs in respect of past and current service contributions. The Railway also assumed the responsibility to fund all obligations of the plan in excess of employee contributions whereas prior to the revision, the responsibility of the Railway was limited to matching required employee contributions.

As of January 1, 1976, the last date as of which a formal actuarial valuation was made, there was no unfunded liability. While no formal actuarial valuation has been obtained, the independent consultant has estimated that the present value of projected future payments under the revised plan results in an unfunded past service liability of approximately \$13,000,000 as at January 1, 1978. This will be funded over a period of 25 years. The actual liability will not be determined until eligible employees have signified their intent to accept the revised plan.

Until the next actuarial valuation, which under the terms of the plan must be no later than January 1, 1979, the Railway will contribute to the plan the greater of \$3,000,000 per year or 11% of covered payroll. Railway pension plan contributions for 1977 were \$2,000,000. On the assumption that all presently enrolled employees were members of the revised plan, 11% of covered payroll would have amounted to approximately \$4,400,000 in 1977.

8. Remuneration of directors and officers

Total remuneration paid to six officers amounted to \$244,295 (five in 1976 - \$170,303). Remuneration paid, including that paid for services in respect of the Royal Commission estimated to be \$62,000, to eight directors who were not officers of the Railway amounted to \$136,538 (eight in 1976 - \$21,425); the remaining director served in each year without remuneration from the Railway.

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia School Districts Capital Financing Authority

I have examined the statement of assets and liabilities of the British Columbia School Districts Capital Financing Authority as at 31 March 1978 and the statement of receipts and disbursements for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 March 1978 and the results of its receipts and disbursements for the year then ended in accordance with generally accepted accounting principles, as modified by note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

A handwritten signature in cursive script, reading "Erma Morrison".

BRITISH COLUMBIA REGIONAL HOSPITAL DISTRICTS FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1978

1. Accounting Policies

The accounts of the Authority are maintained on a cash basis modified to include interest accrued on sinking fund investments.

The Authority issues debentures to provide funds for the purchase of debentures of various regional hospital districts. The terms and net proceeds of each Authority debenture issue are identical to the terms and amount of Regional Hospital Districts debentures purchased. Long-term investments and long-term debt are stated at par value.

Sinking funds are maintained by the Trustee, Minister of Finance for the Province of British Columbia, to provide for the retirement of Authority debentures at maturity. Sinking fund instalments, income earned on sinking fund investments, and the corresponding reinvestment of the income by the sinking fund trustee have been reflected in the statement of receipts and disbursements.

2. The differences between current year payments of interest on long-term debt and instalments into the sinking fund, and receipts of interest on long-term investments and sinking fund instalments from regional hospital districts are as follows:

| | <u>Received</u> | <u>Paid</u> | <u>Difference</u> |
|---|-----------------|--------------|-------------------|
| Interest | \$22,752,582 | \$22,800,076 | \$47,494 |
| Sinking fund instalments | 7,920,574 | 7,948,946 | 28,372 |
| Payments received in advance in the prior year | | | <u>\$75,866</u> |

3. Long-term Debt

As at March 31, 1978, sinking fund instalments of \$9,028,276 were due in each of the next five years.

AUDITOR'S REPORT

To the Chairman and Members of the
British Columbia Regional Hospital Districts Financing Authority

I have examined the statement of assets and liabilities of the British Columbia Regional Hospital Districts Financing Authority as at 31 March 1978 and the statement of receipts and disbursements for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at 31 March 1978 and the results of its receipts and disbursements for the year then ended in accordance with generally accepted accounting principles, as modified by note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1978

1. Accounting Policies

The accounts of the Authority are maintained on a cash basis modified to include interest accrued on sinking fund investments.

The Authority issues debentures to provide funds for the purchase of debentures of various school districts. The terms and net proceeds of each Authority debenture issue are identical to the terms and amount of School District debentures purchased. Long-term investments and long-term debt are stated at par value.

Sinking funds are maintained by the Trustee, Minister of Finance for the Province of British Columbia, to provide for the retirement of Authority sinking fund debentures at maturity. Sinking fund instalments, income earned on sinking fund investments, and the corresponding reinvestment of the income by the sinking fund trustee have been reflected in the statement of receipts and disbursements.

Balances in United States dollars included in the accounts are stated at par. Translation of the debt payable in United States dollars at the rate of exchange as at March 31, 1978, would increase the total debt outstanding by approximately \$11,662,000.

2. This amount is held in trust under separate interest coupon bank accounts for the payment of unrepresented interest coupons.
3. The difference between interest received and paid on long-term investments for the current year (\$174,403) equals interest payments received in advance in the prior year.
4. As at March 31, 1978 sinking fund instalments of \$23,274,322 and serial debenture maturities of \$750,000 in Canadian dollars and \$2,500,000 in U.S. dollars are due in each of the next five fiscal years.
5. On December 20, 1978 the Authority was authorized by an Order-in-Council to borrow an amount not to exceed \$100,000,000 from the Canada Pension Plan by the sale of debentures for the purposes of the Authority.

CHARTERED ACCOUNTANTS

AUDITORS' REPORT

To the Shareholders of
British Columbia Steamship Company (1975) Ltd.

We have examined the consolidated balance sheet of British Columbia Steamship Company (1975) Ltd. as at December 31, 1977 and the consolidated statements of income and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA STEAMSHIP COMPANY (1975) LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1977

1. ACCOUNTING POLICIES

- (a) Principles of consolidation
The consolidated financial statements include the accounts of the company and its subsidiary, British Columbia Steamship Company Inc.
- (b) Inventories
Inventories are valued at lower of cost and net realizable value.
- (c) Depreciation
The vessel and leasehold improvements are amortized on the straight-line basis over ten years. Other fixed assets are depreciated on the diminishing balance method at the annual rates indicated in note 2.
- (d) Organization costs
Organization costs are being amortized on a straight-line basis over ten years.
- (e) Deferred charges
Deferred charges are amortized on a straight-line basis over three years.
- (f) Provision for refit
Company officials have estimated that refit costs to ready the vessel for the 1978 operating season will amount to \$467,629, and this amount has been charged against 1977 operations. The 1978 refit operations commenced in October 1977 and \$66,529 was expended to December 31, 1977.
- (g) On-board services
The costs of providing meals for the crew have been included in the expenses of the dining room rather than allocated to operating departments.

AUDITORS' REPORT

To the Minister of Finance,
Province of British Columbia:

We have examined the accompanying balance sheet of the British Columbia Systems Corporation as at March 31, 1978. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, this balance sheet presents fairly the financial position of the Corporation as at March 31, 1978 in accordance with generally accepted accounting principles.

BRITISH COLUMBIA SYSTEMS CORPORATIONNOTES TO THE BALANCE SHEETMARCH 31, 19781. Objectives of the Corporation

The British Columbia Systems Corporation is incorporated as a Crown Corporation of the Province of British Columbia under the Systems Act S.B.C. 1977, assented to September 1, 1977.

The purpose of the Corporation is to establish and implement such policies as it considers appropriate for the consolidation and rationalization of data processing services provided for government entities. To achieve this purpose, the Corporation has the power and capacity, among other things, to:

- (a) provide data processing and related services required for governmental purposes;
- (b) recommend and implement data processing standards, practices, controls and technical guidelines to facilitate a progressive improvement of information systems required by government; and
- (c) subject to approval of the Lieutenant-Governor in Council, set rates and prescribe terms of agreements for the use of data processing provided by the Corporation to its users.

2. Status of the Corporation

- a) For the period September 1, 1977 to March 31, 1978 -

The Corporation assumed certain administrative responsibilities for the Province's data processing activities. Financial responsibility to March 31, 1978 for all data processing activities remained with various government entities.

Expenditures during the period administered by the Corporation (which represent a portion of the provincial government spending for data processing for the related period) were approximately as follows:

| | |
|--|--------------|
| Salaries, benefits and other related costs | \$3,468,000; |
| Data processing costs, including equipment rentals | \$2,566,000; |
| Occupancy, supplies, professional services and other costs | \$866,000. |

These expenditures were fully recoverable from various government ministries, agencies and the Medical Services Commission.

- b) April 1, 1978 -

Effective April 1, 1978, the Corporation commenced operations for its own account.

- 2 -

3. Fixed assets and equipment leases

Most of the Corporation's fixed assets were purchased from the Province pursuant to an Order of the Lieutenant-Governor in Council dated March 30, 1978. Those fixed assets acquired by the Province prior to January 1, 1978 were purchased for \$1 from the Province, and fixed assets acquired by the Province between January 1, 1978 and March 31, 1978 (which totalled \$469,073) were purchased from the Province at the lower of cost and market which in each case was cost. The Corporation also acquired \$44,346 in fixed assets on its own account.

Pursuant to the same Order of the Lieutenant-Governor in Council, the Province's right, title and interest in all computer hardware, software and ancillary leases was transferred to the Corporation.

4. Contractual obligations

- (a) Minimum annual rentals under lease agreements for computer hardware, software and ancillary equipment over the next five years are expected to amount to \$4,414,000 in 1979; \$3,984,000 in 1980; \$3,633,000 in 1981; \$2,728,000 in 1982; and \$1,390,000 in 1983.
- (b) Minimum annual rentals for premises are expected over the next five years to amount to \$776,000 in 1979; \$805,000 in 1980; \$805,000 in 1981; \$805,000 in 1982; and \$624,000 in 1983.
- (c) Outstanding purchase commitments at March 31, 1978 amount to \$736,000 and are in respect to the purchase of furniture and leasehold improvements.

5. Subsequent events

The Lieutenant-Governor in Council has authorized the issue by the Corporation of \$10,000,000 of unsecured non-interest bearing certificates, callable at the option of the Corporation. Subsequent to the year-end, the Corporation issued \$5,000,000 of these certificates to the Province for cash.

Notes to the Consolidated Financial Statements

Canadian Cellulose Company, Limited and subsidiaries

1. Summary of significant accounting policies

(a) Consolidation

The consolidated financial statements include the accounts of the company and its subsidiaries, all of which are wholly-owned.

(b) Investments in associated companies

The investment in Babine Forest Products Limited (24% owned) is accounted for on the equity method. The investment in Haseldonckx, S.A., formerly 50% owned and accounted for on the equity method, was sold in 1977; the gain is reflected in other income.

(c) Translation of foreign currencies

Where covered by forward exchange contracts, current assets and current liabilities in foreign currencies are translated into Canadian dollars at the related contract rates. Where not so covered, current assets and current liabilities are translated at exchange rates prevailing at the end of each year. Long term debt is translated at rates the funds were converted into Canadian dollars except that the Bonds have been translated at the rate of exchange prevailing on the date of the June 29, 1973 re-organization. Revenues and expenses of foreign subsidiaries are translated at average exchange rates for each year.

(d) Inventories

Logs, pulp chips and other raw materials are valued at the lower of average cost and replacement cost. Finished products (pulp and lumber) are valued at the lower of average cost and net realizable value. Supplies are valued at average cost.

(e) Property, plant and equipment

These assets are stated at cost. When such assets, except logging equipment, are disposed of in the normal course of business, the cost is removed from the asset accounts and charged to the accumulated depreciation account and the proceeds are credited to the accumulated depreciation account. When logging equipment is disposed of, the cost and related accumulated depreciation are removed from the accounts and any gain or loss is reflected in earnings.

(f) Depreciation, amortization and depletion

Depreciation, amortization and depletion are computed on original cost as follows:

| Asset | Method |
|---|---|
| Pulp mills | 4% composite rate; straight-line |
| Sawmills | 4% to 6% composite rate; straight-line |
| Logging equipment | 10% to 20% rate; diminishing balance |
| Timber cutting rights, roads and related facilities | units of production method, using current log production as a percentage of estimated total log production available from such assets |

2. Inventories

| <i>(Thousands of dollars)</i> | 1977 | 1976 |
|--|-----------|--------|
| Logs, pulp chips and other raw materials | \$ 32,496 | 25,932 |
| Pulp and lumber | 26,521 | 37,377 |
| Supplies | 6,900 | 6,664 |
| | \$ 65,917 | 69,973 |

3. Property, plant and equipment

| <i>(Thousands of dollars)</i> | 1977 | 1976 |
|--|-----------|---------|
| Pulp mills | \$178,023 | 173,044 |
| Sulphite mill modification in progress | 81,451 | 18,083 |
| Sawmills | 23,620 | 21,296 |
| Timber cutting rights, roads and related facilities | 43,660 | 39,372 |
| Logging equipment and other facilities | 19,858 | 19,524 |
| Land | 971 | 955 |
| | 347,583 | 272,274 |
| Less: Accumulated depreciation, amortization and depletion | 204,850 | 195,441 |
| | \$142,733 | 76,833 |

As a result of the June 29, 1973 re-organization, property, plant and equipment was written down by \$75,485,000, of which \$9,964,000 was applied against the net book value of specific assets and \$65,521,000 was added to accumulated depreciation, amortization and depletion.

4. Income taxes

In certain prior years, the company incurred cash losses and recorded in its accounts depreciation, including extraordinary write-downs of fixed assets, in excess of the amounts which it claimed for income tax purposes. The resulting potential tax benefits were not recognized in the accounts of those years because of the uncertainty of their ultimate realization but were recognized in later years to the extent realized. In 1977, the remaining benefit of \$4,700,000 has been recorded as the company will claim for tax purposes the remainder of such prior years' losses and depreciation charges. The company will also claim in 1977 additional depreciation for tax purposes in excess of that charged in the 1977 accounts and the resulting deferred income taxes are reflected on the balance sheet.

Since June, 1975 the company has made fixed asset acquisitions qualifying for federal investment tax credits which would enable it to reduce income tax expense by approximately \$3,000,000 if substantial income taxes become payable prior to December 31, 1982. The company does not intend to record such benefits in its accounts until it is virtually certain that the investment tax credits will be realized.

5. Long term debt

| <i>(Thousands of dollars)</i> | 1977 | 1976 |
|---|-----------|--------|
| Bonds, excluding the portion payable within one year which is included in current liabilities: | | |
| 6½% Bonds due January 2, 1981 with annual sinking fund instalments (1977 U.S. \$12,000,000; 1976 U.S. \$16,000,000) | \$ 11,978 | 15,971 |
| 5½% Bonds due July 1, 1985 with annual sinking fund instalments (1977 U.S. \$22,500,000; 1976 U.S. \$25,000,000) | 22,460 | 24,955 |
| | \$ 34,438 | 40,926 |

| <i>(Thousands of dollars)</i> | 1977 | 1976 |
|--|-----------|------|
| Promissory Notes: | | |
| 10½% Promissory Notes due December 15, 1992 with annual principal payments commencing December 15, 1983 (U.S. \$30,000,000) | \$ 32,387 | — |
| 11½% Promissory Notes due December 15, 1992 with annual principal payments commencing December 15, 1983 | 12,000 | — |
| | \$ 44,387 | — |

In connection with the sulphite mill modification project (note 9), the company has agreed to issue by December 31, 1978 further 10½% and 11½% Promissory Notes aggregating U.S. \$20,000,000 and Cdn. \$8,000,000. In connection with the issue of the Promissory Notes, which are unsecured, the trust deed relating to the bonds previously designated as 6½% and 5½% First Mortgage and Collateral Trust Bonds was amended to provide that they be redesignated as 6½% Bonds and 5½% Bonds respectively, be unsecured and rank equally with the Promissory Notes, and to require that bank loans be unsecured. No change was made in the repayment terms and interest rates.

The Province of British Columbia has unconditionally guaranteed the payment of principal and interest on the Bonds. The Promissory Notes are not so guaranteed. Principal payments required on long term debt during the next five years are \$7,113,000 in each of the years 1978 to 1980, \$8,207,000 in 1981 and \$3,830,000 in 1982.

6. Pensions

The company's pension plans were fully funded at December 31, 1977.

7. Share capital

| <i>(Thousands of dollars)</i> | 1977 | 1976 |
|---|-----------|--------|
| Non-Voting Shares without par value. Authorized 60,000 shares; issued 39,750 shares | \$ 39,750 | 39,750 |
| Common Shares without par value. Authorized 24,318,119 shares; issued 12,158,153 shares (1976 — 12,154,853 shares) | 29,039 | 29,022 |
| | \$ 68,789 | 68,772 |

Other than with respect to voting, the Non-Voting Shares and the Common Shares are equal and carry the same rights including the right to payment of dividends and distributions of the same amount per share.

Under the company's stock option plan, 93,300 unissued Common Shares were reserved at December 31, 1977 for issue to key employees at prices equal to the market values on the dates of grant. The options are for a term of ten years and are exercisable after one year to the extent of 20% a year on a cumulative basis.

At December 31, 1977, there were outstanding options, which will expire on February 25, 1984, for the purchase of 67,900 shares at the price of \$6.375 per share, and other options, which will expire on various dates in the period April 22, 1984 to November 27, 1987, for the purchase of 18,940 shares at prices ranging from \$4.325 to \$7.438. During 1977, 3,300 shares were issued for \$17,000 cash under the plan.

8. Dividend restrictions

The trust deed relating to the Bonds and the agreement relating to the Promissory Notes, in general terms, restrict dividends and certain other payments to a maximum of \$4,000,000 plus 50% of net earnings after December 31, 1976. The amount so available for dividends at December 31, 1977 was \$8,060,000.

9. Commitments

The Prince Rupert sulphite mill is currently being modified to the manufacture of kraft pulp, with completion scheduled in late 1978. The estimated cost of the modification, including related capital expenditures on the existing Prince Rupert kraft mill, is \$122,000,000

excluding capitalization of financial costs. At December 31, 1977 contractual commitments for future expenditures amounted to approximately \$25,000,000. Rental obligations under long term leases amount to approximately \$1,400,000 in each of the next five years.

10. Insurance proceeds

Insurance proceeds of \$4,562,000, net of cost, for pulp destroyed by fire, are included in other income.

11. Remuneration of directors and senior officers

The aggregate direct remuneration paid or payable to directors and senior officers amounted to \$756,000 in 1977.

12. Anti-Inflation Act

The company is subject to restraint of profit margins, dividends and compensation under the Anti-Inflation Act and has complied with all provisions of the Act to December 31, 1977.

13. Subsidiary companies

Calum Lumber Limited
Canadian Cellulose International, S. A.
Celgar Properties Limited
Celtran Equipment Limited
Colcel Properties Limited
High Arrow Limited
Pohle Lumber Co. Ltd.
Twinriver Timber Limited

Auditors' Report to the Shareholders

We have examined the consolidated balance sheet of Canadian Cellulose Company, Limited as at December 31, 1977 and the consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Incorporation

The Health Facilities Association of British Columbia was incorporated on October 15, 1975 under the Societies Act of British Columbia. Its object is to assist in financing the capital costs of hospital projects, medical and health facilities, and community human resources and health centres in the Province of British Columbia.

2. Source of Funds

The Association relies principally upon grants from the Province of British Columbia as a source of funds for the interest and sinking fund payments required under the terms of the debentures issued by the Association. During the year, interest and sinking fund payments on Debenture Series 1(1)JF, 1(2)JG and 1(3)KB were paid by the Province while the Association made payments on Series 1(1)JD. Future payments will be made by the Association, in accordance with the terms of the Debentures, where interest earnings are sufficient to discharge the disbursements.

3. Recoverable Advances

The Association provided interim financing to the Greater Vancouver Regional District for the construction of the University of British Columbia Acute-Care Hospital. These advances have since been recovered by claims against the provincial Ministry of Education and the federal Health Resources Fund.

4. Funds in Trust

a) Health Resources Fund

The Association held in trust \$3,364,144 received from the federal Health Resources Fund as a result of a claim made by the Ministry of Health with respect to the University of British Columbia Extended-Care Hospital. Subsequent to the year end payments totalling \$711,290 were made from this account.

b) British Columbia Medical Centre

The British Columbia Medical Centre Fund was previously transferred to the Association, in trust, on the understanding that the funds would be expended only for the purposes set out in the Medical Centre of British Columbia Act and in compliance with the applicable provisions of the Special Funds Appropriation Act, 1974.

- 2 -

5. Sinking Fund Investments

Under the terms of the debentures, sinking fund instalments are required to be made annually. During the year, in addition to the investment of sinking fund instalments and the re-investment of income earned on these investments, the British Columbia Medical Centre assigned its sinking fund investment of \$43,330 to the Association when the Association assumed the debenture previously issued by the Medical Centre. The sinking fund investments, reduced by an overdraft of \$20,793, are carried at cost which approximate market value.

6. Equipment Grants

The Association was only required to provide minimal grants to hospitals for the purchase of equipment during the year as they were substantially made by the Ministry of Health.

7. British Columbia Medical Centre Grant

An Act to Repeal the British Columbia Medical Centre Act was passed to come into effect on a day to be fixed by proclamation. In winding down the affairs of the British Columbia Medical Centre prior to proclamation of the Repeal Act, it was agreed that the Association would make a grant to the British Columbia Medical Centre to enable it to discharge a debenture previously issued.

8. Commitments and Contingent Liabilities

Unexpended balances of approved construction projects totalled \$34,394,081 as at March 31, 1978.

Housing Corporation of British Columbia Annual Report 1977

Notes to Consolidated Financial Statements

for the year ended October 31, 1977

1. Significant accounting policies

(a) Principles of Consolidation

The consolidated financial statements include the accounts of Housing Corporation of British Columbia and its wholly-owned subsidiaries:

Dunhill Development Corporation
 HCBC Construction Ltd.
 Venture Realty Ltd.

On November 1, 1976, the Corporation sold Crown Lumber Limited, a wholly-owned subsidiary, for its book value.

(b) Land and Housing Units

These assets are reflected in the accounts at the lower of cost or net realizable value.

(c) Carrying Charges and Overhead Expenses Capitalized

The cost of land and housing units includes:

- direct carrying costs (interest and property taxes) which are capitalized from the date of acquisition of the land;
- an appropriate portion of corporate overhead capitalized as development costs.

(d) Depreciation and Amortization

Depreciation and amortization is recorded on the straight-line method over the estimated useful life of the applicable assets.

2. Land and housing units

| | 1977 | 1976 |
|---------------------------------------|--------------------|--------|
| | (thousand dollars) | |
| Completed for sale | | |
| Land | 971 | 2,144 |
| Carrying charges | 458 | 74 |
| Development costs | 8,954 | 3,013 |
| | 10,383 | 5,231 |
| Under development | | |
| Land | 658 | 3,000 |
| Carrying charges | 40 | 200 |
| Development costs | 86 | 1,543 |
| | 784 | 4,743 |
| Held for future development or resale | | |
| Land | 3,903 | 2,355 |
| Carrying charges | 160 | 103 |
| Pre-development costs | 164 | 80 |
| | 4,227 | 2,538 |
| Total Land and Housing Units | 15,394 | 12,512 |

3. Other assets

| | 1977 | 1976 |
|--|--------------------|------|
| | (thousand dollars) | |
| Fixed assets and leasehold improvements, net | 203 | 243 |
| Inventory of lumber | — | 180 |
| Other | 7 | 9 |
| | 210 | 432 |

Accumulated depreciation and amortization at October 31, 1977 amounted to \$221,675 (1976, \$315,000).

4. Income taxes

All of the issued shares of the Corporation are owned by the Province of British Columbia and therefore it is not subject to Federal or Provincial income taxes.

5. Mortgages payable

| | 1977 | 1976 |
|---|--------------------|-------|
| | (thousand dollars) | |
| Advances on mortgages to be assumed by purchasers of housing units | 1,351 | 4,159 |
| Mortgages, 9% to 11%, principal and interest of \$8,482 payable monthly, due at various dates to 1992 | 1,559 | 715 |
| | 2,910 | 4,874 |

6. Bank indebtedness

The bank indebtedness is on a demand basis at prime rate. As security for this indebtedness and letters of credit of \$240,420, the Corporation has issued a \$6,000,000 floating debenture on all its assets subject to specific other charges (note 5).

7. Share capital

| | 1977 | 1976 |
|--|--------------------|-------|
| | (thousand dollars) | |
| Authorized — 2,000,000 common shares of no par value | | |
| Issued and fully paid — 1,355,084 common shares | 1,902 | 1,902 |

8. Other information

| | 1977 | 1976 |
|---|--------------------|------|
| | (thousand dollars) | |
| (a) Remuneration of directors and senior officers | 437 | 418 |
| (b) Depreciation and amortization in the year | 43 | 132 |

Housing Corporation of British Columbia Annual Report 1977

8. Other information (continued)

(c) Fees charged to the Ministry of Municipal Affairs and Housing, Province of British Columbia, and overhead expenses charged to projects in the housing funds administered, are as follows:

| | | |
|--|-------|-------|
| Fees for professional services rendered, land acquisition and development, and construction management | 1,285 | 2,064 |
| Overhead recoveries | 217 | 573 |
| Total | 1,502 | 2,637 |

(d) Interest incurred in the year, all of which has been capitalized to land and housing units

| | |
|-------|-----|
| 1,135 | 712 |
|-------|-----|

(e) Mortgages Receivable include second mortgages totalling \$411,000 on the sale of housing units, receivable in blended monthly payments of principal and interest at 10% percent, maturing 1982 and 1987.

9. Contingent liabilities

The Corporation is contingently liable for certain mortgages assumed by purchasers of housing units sold by the Corporation.

10. Anti-Inflation

The Corporation is subject to the terms of the Anti-Inflation Act and Regulations, which became effective October 14, 1975, with regard to compensation.

11. Comparative figures

Certain of the 1976 figures provided for purposes of comparison have been restated to conform with the classification used in the current year. These changes had no effect on net earnings.

Notes to Province of British Columbia housing funds Administered by Housing Corporation of British Columbia

| Less: Amounts receivable at end of year | 2,494 | — |
| Balance — end of year | 31,767 | 62,858 |

14. Letters of credit

At October 31, 1977, term deposits in the amount of \$2,385,000 are pledged as security for letters of credit in the same amount.

Housing Corporation of British Columbia Annual Report 1977

Auditors' Report

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the consolidated balance sheet of Housing Corporation of British Columbia as at October 31, 1977 and the consolidated statements of earnings and retained earnings and source and use of cash for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at October 31, 1977 and the results of its operations and the source and use of its cash for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Notes to Financial Statements February 28, 1978

1. STATUS OF THE CORPORATION

The Insurance Corporation of British Columbia (ICBC) is a Crown corporation incorporated under the Insurance Corporation of British Columbia Act S.B.C. 1973 (1st session), Chapter 44, assented to April 18, 1973. ICBC has the power and capacity to act as an insurer and reinsurer in all classes of insurance and to operate and administer the Automobile Insurance Act (AIA) Fund.

The AIA Fund is by legislation a separate entity for financial accounting purposes. A statement showing the results of the operation of the Fund is included with the financial statements of ICBC and the balance of the Fund, which represents its accumulated net operating position, is reflected in the balance sheet of ICBC. The Fund consists of the revenues and expenses attributable to the AIA Fund operations. All assets and liabilities are held by ICBC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Reporting

As prescribed by Section 18(3) of the Insurance Corporation of British Columbia Act, the financial statements of ICBC are presented in accordance with generally accepted accounting principles. In this respect, the reporting conforms in all material aspects to that suggested in the 1974 research study "Financial Reporting for Property and Casualty Insurers" of the Canadian Institute of Chartered Accountants. Not all property and casualty insurance companies in Canada report on this basis.

Investments

Investments are carried as follows:

| | |
|--|---|
| Short-term deposit receipts, call loans, and notes | — at cost or amortized cost plus accrued interest |
| Bonds | — at amortized cost plus accrued interest |

Provisions for permanent decline in values of investments are made where appropriate (none during 1977/78 and 1976/77).

Premium Acquisition Expenses

Premium taxes and commissions, including those relating to the subsequent year's Automobile Insurance Act Fund premiums, are charged to expense over the terms of the insurance contracts to which such costs relate.

Depreciation and Amortization

Depreciation is provided on a straight-line basis commencing in the month following that in which assets are placed in service at rates which will amortize the original cost over the useful life of each asset. Leasehold improvements are amortized over the term of each lease plus the first renewal period where appropriate.

Premiums in Advance

The liability for premiums in advance consists of vehicle premiums received or financed prior to March 1, 1978 relating to the immediately following fiscal year.

Unearned Premiums

The liability for unearned premiums is the portion of premiums that relates to the unexpired term of each general insurance contract, or driver's premium.

Unpaid Claims

Unpaid claims includes a provision for reported and unpaid claims, based on the claims settlement experience of ICBC, current trends and a detailed review of claims files, and an estimate for unreported claims.

| | Feb. 28, 1978 | Feb. 28, 1977 |
|-------------------------------------|----------------------|----------------------|
| Automobile Insurance Act Fund | \$260,648,000 | \$182,098,000 |
| General Insurance | 9,168,000 | 6,625,000 |
| Total Unpaid Claims | <u>\$269,816,000</u> | <u>\$188,723,000</u> |

3. RESERVES

AIA Fund

In the fiscal year ended February 28, 1977 the AIA Fund appropriated from surplus a Safe Driving Discount reserve of \$52,300,000 in respect of the Safe Driving Discount Program established for the current fiscal year. Subsequently, it was decided that this would be an ongoing program for safe driving in British Columbia. The Safe Driving Discount is offset against premiums in the year the discount is allowed and the net premium received is reported in the AIA Fund Statement of Operations.

As a result of this policy the \$52,300,000 Safe Driving Discount reserve was returned to unappropriated surplus. After providing \$8,573,000 to offset the 1977/78 loss, an amount of \$44,100,000 has been appropriated increasing the Rate Stabilization Reserve to \$55,600,000.

The purpose of this reserve is to lessen the potential impact on vehicle pre-

miums of significant variation in claims loss experience in future years.

General Operations

ICBC has appropriated from General Operations retained earnings a further \$550,000 to the Catastrophe Reserve and an additional \$1,700,000 to the Rate Stabilization Reserve. These appropriations increase these reserves to \$850,000 and \$2,200,000 respectively.

As is the practice in the industry, a Catastrophe Reserve has been established to reflect the impact of possible losses arising from catastrophic occurrences. Catastrophes such as earthquakes, storms, or conflagration occur at random and the losses arising could be substantial.

The Rate Stabilization Reserve has been appropriated to lessen the potential impact on General Insurance premiums of significant variations in claims loss experience in future years.

4. INVESTMENTS

Investments of temporary cash surpluses held for short-term purposes consist of:

| | Feb. 28, 1978 | Feb. 28, 1977 |
|---|----------------------|----------------------|
| Short-term Deposit Receipts, Call Loans and Notes (approximates market value) | \$393,643,000 | \$342,923,000 |
| Bonds (est. market value, 1978 — \$121,551,000; 1977 — \$ 80,762,000) | 127,412,000 | 82,501,000 |
| | <u>\$521,055,000</u> | <u>\$425,424,000</u> |

5. PROPERTY AND EQUIPMENT

The cost of major classes of property and equipment and the related accumulated depreciation and depreciation rates are:

| | Rates | Cost | Accumulated Depreciation | Net Book Value at February 28 1978 | Net Book Value at February 28 1977 |
|----------------------------|--------|---------------------|--------------------------|------------------------------------|------------------------------------|
| Land | | \$13,376,000 | \$ | \$13,376,000 | \$14,344,000 |
| Buildings . . . | 5-10% | 26,356,000 | 3,611,000 | 22,745,000 | 23,940,000 |
| Furniture & Equipment | 10-40% | 6,325,000 | 2,697,000 | 3,628,000 | 2,671,000 |
| Leasehold Improvements . . | | 1,532,000 | 783,000 | 749,000 | 927,000 |
| | | <u>\$47,589,000</u> | <u>\$7,091,000</u> | <u>\$40,498,000</u> | <u>\$41,882,000</u> |

Depreciation expense in the year amounted to \$2,721,000 (1977 — \$2,280,000).

6. UNEARNED PREMIUMS

| | Feb. 28, 1978 | Feb. 28, 1977 |
|-------------------------|---------------------|---------------------|
| General Insurance | \$10,984,000 | \$ 9,633,000 |
| Drivers Premiums | 3,616,000 | 6,025,000 |
| | <u>\$14,600,000</u> | <u>\$15,658,000</u> |

7. COMMITMENTS

ICBC is committed to make the following payments during the next five years on property and equipment leased for periods of more than one year:

| | |
|-------------------|-------------|
| Fiscal year to | |
| February 28, 1979 | \$4,000,000 |
| Fiscal year to | |
| February 29, 1980 | 3,000,000 |
| Fiscal year to | |
| February 28, 1981 | 2,500,000 |
| Fiscal year to | |
| February 28, 1982 | 900,000 |
| Fiscal year to | |
| February 28, 1983 | 100,000 |

8. GOVERNMENT OF CANADA ANTI-INFLATION LEGISLATION

The Anti-Inflation Act which became effective on October 14, 1975 provides for the restraint of prices and profits and compensation of employees to October 31, 1978.

ICBC is required to comply with this Legislation as it relates to employee compensation. Management's review of its operations to February 28, 1978 indicates that ICBC has complied with the Legislation in all material aspects.

In accordance with the agreement between the Government of British Columbia and the Federal Government, ICBC is complying with the Legislation related to the restraint of prices and profits.

9. PENSION PLAN

Certain employees participate in a contributory pension plan and are entitled to vested interests prior to retirement.

Employees contribute specified percentages of salaries. ICBC contributes to the Plan all amounts as are actuarially determined as being required, over and above employee contributions, to fund the benefits earned by employees under the Plan.

As of February 28, 1978 the Corporation has fully provided all past service liabilities of the Pension Plan. Contributions by ICBC for the year ended February 28, 1978 were \$792,000. (1977 - \$255,000).

10. COMPARATIVE FIGURES

The financial statements for the year ended February 28, 1977 were reported upon by other auditors.

Auditors' Report

The Honourable Dr. P. L. McGeer
Minister of Education
Province of British Columbia

We have examined the balance sheet of the Insurance Corporation of British Columbia as at February 28, 1978, the statements of general operations and changes in financial position and the statement of operations of the Automobile Insurance Act Fund for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation as at February 28, 1978 and the results of its operations and the changes in its financial position and the results of the operations of the Fund for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

KOOTENAY FOREST PRODUCTS LTD.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventories

Inventories of lumber, logs, plywood, veneer and peeler blocks are valued at the lower of average cost and net realizable value. Inventoried equipment and supplies are valued at the lower of average cost and replacement cost.

Depreciation, amortization and depletion

The company records depreciation on buildings and equipment acquired from Eddy Match Company, Limited (note 3) on the straight-line method at rates varying between 3% and 20% based on net book values. For those assets acquired subsequently, depreciation is recorded using the same method and rates based on cost.

Logging road costs are amortized on the basis of production divided by the estimated recoverable timber to be removed over the roads.

Costs of timberlands and timber cutting rights are depleted on the basis of production divided by the estimated recoverable timber to be removed from the timber holdings.

Income taxes

No provision is made for income taxes on earnings since the company is exempt by virtue of its shareholdings. Logging taxes are recorded on the tax allocation basis.

2. INVENTORIES

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

3. PROPERTY, PLANT AND EQUIPMENT

| | 1 9 7 7 | | 1976 |
|----------------------------|-------------------|--|-------------------------|
| | Cost \$ | Accumulated depreciation, amortization and depletion \$ | Net book value \$ |
| Buildings | 2,306,825 | 853,262 | 1,453,563 |
| Machinery and equipment | 8,368,504 | 4,151,663 | 4,216,841 |
| Logging roads | 7,593,117 | 3,689,807 | 3,903,310 |
| Timberlands | 488,252 | 205,003 | 283,249 |
| Timber cutting rights | 307,726 | 171,146 | 136,580 |
| Land | 197,417 | 197,417 | 239,402 |
| | <u>19,261,841</u> | <u>9,070,881</u> | <u>10,190,960</u> |
| | | | <u>10,063,067</u> |

All property, plant and equipment purchased from Eddy Match Company, Limited in 1974 has been recorded in the accounts at their original cost or the net book values at January 1, 1968 for assets then in existence. Accumulated depreciation has been recorded equal to the difference between these amounts and the prorated actual cost to the company at the date of purchase from Eddy Match Company, Limited. The remaining net book values of these assets are being depreciated according to the policies set out in note 1.

4. BANK LOANS

| | 1977 \$ | 1976 \$ |
|--|------------------|------------------|
| (a) Operating loan - with interest equal to the prime bank rate | <u>5,617,000</u> | <u>3,546,000</u> |

The operating loan is repayable on demand and is secured by a pledging of inventories under Section 88 of the Bank Act and by a general assignment of accounts receivable.

| | 1977 \$ | 1976 \$ |
|--|------------------|------------------|
| (b) Term loan - with interest at 1% above the prime bank rate | 3,000,000 | 3,600,000 |
| Less: Current portion | <u>800,000</u> | <u>600,000</u> |
| | <u>2,200,000</u> | <u>3,000,000</u> |

KOOTENAY FOREST PRODUCTS LTD.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

4. BANK LOANS (continued)

- (b) The term loan is secured by a general assignment of accounts receivable and, under the terms of \$7.5 million debenture agreement, by a first fixed charge on land and buildings and a floating charge on the remaining assets of the company.

The term loan is repayable as follows:

| | \$ |
|----------------|-----------|
| December, 1978 | 800,000 |
| December, 1979 | 1,000,000 |
| December, 1980 | 1,200,000 |

5. LEASE COMMITMENTS

The company is committed to make lease payments amounting to \$210,254 in 1978. The majority of leases extend through to 1981.

6. ANTI-INFLATION LEGISLATION

By virtue of an agreement dated June 23, 1976 between the Province of British Columbia and the Federal Government, the company is subject to restraint of profit margins, prices and dividends under the terms of the Anti-Inflation Act and Regulations with effect from June 23, 1976 and restraint of compensation with effect from October 14, 1975. The company believes that it has complied in all material respects with the provisions of the agreement.

7. STATUTORY INFORMATION

The aggregate direct remuneration paid or payable to directors and senior officers amounted to \$180,297 for the year ended December 31, 1977.

8. SUBSEQUENT EVENT

On March 7, 1978 the company increased its authorized capital and issued to British Columbia Cellulose Company an additional 11,602,729 common shares at \$1 each. The proceeds were used to repay in full the advances from British Columbia Cellulose Company.

AUDITOR'S REPORT

To the Chairman and Members of the
Legal Services Commission, and

To the Attorney-General
Province of British Columbia

I have examined the statement of financial position of the Legal Services Commission as at 31 March 1978 and the statement of income and expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at 31 March 1978 and the results of its operations for the year then ended in accordance with generally accepted accounting principles which, except for the change relating to recoveries from projects as referred to in Note 3 to the financial statements, have been applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March, 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

Erma Morrison, C.A.

LEGAL SERVICES COMMISSION

NOTES TO THE FINANCIAL STATEMENTS

31 MARCH 1978

1. Significant Accounting Policies

- a) Tariffs are amounts billed to and approved by the Legal Aid Society for solicitors' fees and costs associated with providing legal aid to persons in need. The approved bills are paid by the Province of British Columbia, through the Ministry of the Attorney General, and are charged as grants made by the Province to the Legal Services Commission.
- b) Fixed asset costs of the Commission are amortized over five years on a straight line basis.

2. Fixed Asset Amortization

| | 1978 | | 1977 Net Book Value |
|------------------|------------------|------------------|---------------------------|
| | Cost | Amortization | Net Book Value |
| Office equipment | \$ 39,513 | \$ 12,820 | \$ 26,693 |
| Library | 48,788 | 12,350 | 36,438 |
| | <u>\$ 88,301</u> | <u>\$ 25,170</u> | <u>\$ 63,131</u> |
| | | | <u>\$ 30,040</u> |

3. Recoveries from Projects

Under the terms of the contracts between the Commission and the Community Law Offices and other Societies, any surplus accumulated by the grantees from the funds paid by the Commission as at 31 March is refundable to the Commission. A provision of \$100,000 had been recorded to reflect the estimated refundable surpluses as at 31 March 1977. \$5,512 was recovered, and the balance of \$94,488 has been charged against the current year's operations. As at 31 March 1978 under-expenditures recoverable under contracts are estimated as amounting to \$75,000. This amount has not been recorded in the accounts.

4. Commitments

The Commission's lease for office space expires on 30 June 1979, with annual rental payments totalling \$40,000.

MEDICAL SERVICES PLAN OF BRITISH COLUMBIA

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

756 Fort St
Victoria, B.
V8V 1X4

AUDITOR'S REPORT

To the Chairman of the
Medical Services Commission of British Columbia, and

To the Minister of Health
Province of British Columbia

I have examined the statement of financial position of the Medical Services Plan of British Columbia operating under the direction and control of the Medical Services Commission of British Columbia as at 31 March 1978 and the statement of operations and working capital deficiency for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Plan as at 31 March 1978 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

MEDICAL SERVICES PLAN OF BRITISH COLUMBIA
OPERATED BY AND UNDER THE
MEDICAL SERVICES COMMISSION OF BRITISH COLUMBIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 1978

1. Significant Accounting Policies

(a) Income determination

Premiums from individual subscribers and commercial groups and interest are included in income only when cash is received. Premiums from other sources are recognized as income on an accrual basis.

(b) Liability for benefits

The liability for benefits, consisting of unrepresented and unprocessed claims for medical care and additional benefits, has been calculated, as in prior years, on the basis of past experience.

(c) Fixed assets

The cost of furniture and equipment is charged to administration expense.

2. Contributions from Governments

Until 31 March 1977 funds were received from the Government of Canada under shared-cost programs. Commencing 1 April 1977 these programs were replaced by unconditional transfers to the Province under new Federal-Provincial fiscal arrangements, and the Province now provides the entire government contribution to the Medical Services Plan.

3. Comparative Figures

The 1977 comparative figures have been restated where necessary to conform with the statement presentation adopted for the year ended 31 March 1978.

CHARTERED ACCOUNTANTS

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the balance sheet of Ocean Falls Corporation as at December 31, 1977 and the statements of income and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

OCEAN FALLS CORPORATION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1977

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Inventories

Inventory of finished newsprint is valued at the lower of cost and net realizable value. Inventories of work in progress, raw materials, supplies and logs are valued at the lower of cost and replacement cost.

(b) Fixed assets

Buildings and equipment are depreciated on a straight-line basis over their estimated useful lives at annual rates ranging from 2% to 33%. Depreciation charged to operations in 1977 and included in operating costs and expenses amounted to \$636,396 (1976 - \$365,192).

2. INVENTORIES

Inventories consist of:

| | <u>1977</u> | <u>1976</u> |
|--------------------|--------------------|--------------------|
| Finished newsprint | \$1,244,684 | \$1,868,499 |
| Work in progress | 120,787 | 171,978 |
| Logs | 634,243 | 554,660 |
| Raw materials | 806,403 | 408,032 |
| Supplies | 1,958,925 | 1,517,418 |
| | <u>\$4,765,042</u> | <u>\$4,520,587</u> |

3. BANK INDEBTEDNESS

Bank indebtedness is secured by a general assignment of accounts receivable, inventory and fixed assets.

4. LOANS FROM PROVINCE OF BRITISH COLUMBIA

The loans have no fixed terms of repayment and are secured by debentures with a first charge on the real and personal property, works and undertakings of the corporation. The interest rates on the loans are as follows:

| | <u>1977</u> | <u>1976</u> |
|--|--------------------|--------------------|
| Interest at chartered bank prime rate compounded quarterly on | \$5,044,453 | \$5,044,453 |
| Interest at 8-1/4% compounded semi-annually and maturing October 1984 on | 2,000,000 | - |
| | <u>\$7,044,453</u> | <u>\$5,044,453</u> |

Of the \$470,333 in interest expense for 1977, \$41,589 remained unpaid at the end of the year.

5. STATUTORY INFORMATION

Aggregate remuneration of directors and senior officers (as defined in the B.C. Companies Act) amounted to \$238,582 (1976 - \$238,639).

- 2 -

6. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to reflect presentation adopted for 1977.

7. COMMITMENTS

The corporation is committed under certain circumstances to repurchase the land and houses sold to employees. The cost of repurchase would not exceed the sales price unless authorized improvements have been made.

The corporation is also committed to capital expenditures of approximately \$2,200,000. British Columbia Cellulose Company (a crown corporation) has agreed to loan \$2,000,000 to the corporation on a long-term basis.

PANCO POULTRY LTD.*Touche Ross & Co.*AUDITORS' REPORT

The Shareholders,
Panco Poultry Ltd.

We have examined the consolidated balance sheet of Panco Poultry Ltd. as at April 1, 1978 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at April 1, 1978 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

*Touche Ross & Co*PANCO POULTRY LTD.NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
APRIL 1, 1978Note 1 - Summary of Significant Accounting Policies

Principles of Consolidation

These consolidated financial statements include the accounts of the wholly-owned subsidiaries, Pacific Hatchery Ltd. and Western Feed Co. Ltd.

Inventory Valuation

Inventory is valued at the lower of cost and net realizable value.

Fixed Assets and Depreciation

Fixed assets are recorded at cost and the company provides for depreciation on a straight-line basis over the estimated useful lives of the assets.

Note 2 - Income Taxes

The purchase on February 17, 1975 of all the issued shares of Panco Poultry Ltd. by the Province of British Columbia had the effect of making the company exempt from income taxes under Section 149 of the Income Tax Act.

Note 3 - Bank Indebtedness

The bank indebtedness is secured by a general assignment of book debts, inventory and a guarantee by the Province of British Columbia.

Note 4 - Remuneration of Directors

Directors and senior officers remuneration for the year amounted to \$216,045.

Note 5 - Anti-Inflation Legislation

The company is subject to the compensation guidelines of the Federal Government's Anti-Inflation Legislation through to December 31, 1978.

PLATEAU MILLS LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

1. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the parent company together with its wholly-owned subsidiaries, Plateau Timber Ltd. and Nechako Valley Pulp Mill Ltd.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventories

Log and lumber inventories are recorded at the lower of average cost and net realizable value.

Depreciation and Amortization

The company records depreciation on buildings and mill equipment on the declining-balance method at rates varying between 4% and 30%.

Depreciation on logging equipment is on a straight-line basis at 20%.

Logging road costs and timber rights are amortized on the basis of timber removed from each area.

Income Taxes

No provision is made for income taxes on earnings since the company is exempt by virtue of its shareholdings. Logging taxes are recorded on the tax allocation basis.

3. FIXED ASSETS

| | 1 9 7 7 | | 1976 |
|-------------------|-------------------|---|-------------------|
| | Cost | Accumulated depreciation and amortization | Net book value |
| | \$ | \$ | \$ |
| Land | 131,016 | | 131,016 |
| Buildings | 4,326,965 | 1,164,752 | 3,162,213 |
| Mill equipment | 10,350,090 | 4,178,342 | 6,171,748 |
| Logging equipment | 1,418,678 | 451,421 | 967,257 |

PLATEAU MILLS LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1977

3. FIXED ASSETS (continued)

The company has approved in principle the expansion of its new sawmilling facility to replace an existing older mill. The expansion is budgeted at \$5.8 million. Detailed planning is under way and financing is being negotiated.

4. OTHER ASSETS

| | 1977 \$ | 1976 \$ |
|---|----------------|----------------|
| Timber rights - at cost less accumulated amortization of \$69,954; 1976 - \$4,711 | 439,566 | 504,709 |
| Continuous and refundable timber sale deposits - at cost | <u>133,100</u> | <u>133,100</u> |
| | <u>572,666</u> | <u>637,809</u> |

5. BANK LOANS

The bank loans are secured under Section 88 of the Bank Act, by a general assignment of accounts receivable and by a debenture in the amount of \$4,500,000 which places a first fixed charge on the company's fixed assets subject to a specific charge on certain sawmilling assets in favour of British Columbia Cellulose Company (note 6) and a floating charge on the remaining assets and undertakings of the company. Fire insurance policies on inventories, buildings and equipment are lodged with and payable to the bank.

Under the terms of the bank loans, the company has agreed not to exceed approved capital expenditures or pay dividends without obtaining the bank's approval.

AUDITOR'S REPORT

To the Shareholder of the Provincial Rental Housing Corporation, and

To the Minister of Lands, Parks and Housing
Province of British Columbia:

I have examined the statement of financial position of the Provincial Rental Housing Corporation as at 31 March 1978 and the statements of accumulated return of investment and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at 31 March 1978 and the accumulated return of its investment and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 March 1977 were reported on by the Acting Comptroller-General of the Province of British Columbia.

A handwritten signature in cursive script, reading "Erma Morrison".

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1978

1. Significant Accounting Policies

(a) Accumulated Return of Investment

Amortization charges to rental projects managed by the British Columbia Housing Management Commission are computed as if capital costs were loans repayable over the term by equal payments of blended principal and interest. Under this concept, the return of capital is small in the early years, but substantial in later periods. These amortization receipts, after providing for interest and other expenses, are treated as a reduction of the capital cost of the assets in the Corporation's accounts.

(b) Amortization Receipts

Amortization receipts are the amounts charged annually to the rental projects as repayment of capital costs plus interest, which amounts are determined by agreement between the Federal/Provincial authorities who jointly subsidize the operating deficits of these low income/senior citizen housing units. The funds so accumulated are paid out once a year by British Columbia Housing Management Commission. Federal authorities do not subsidize wholly funded projects. Generally, the amortization charges are calculated to recover costs and expenses over a period of 50 years and the fiscal policies of the Corporation are arranged accordingly.

(c) Administration

All issued shares of the Corporation are held by Her Majesty the Queen in right of the Province of British Columbia represented by the Minister of Lands, Parks and Housing. The Corporation's day to day operations are conducted by personnel of the Ministry under the direction of officers of the Corporation who are themselves senior executives of the Ministry. No charge is made to the Corporation by the Ministry for these services nor for the necessary equipment and supplies. All transactions between the Corporation and the Housing Fund of British Columbia in the acquisition and disposal of rental properties are made at the carrying values recorded in the accounts.

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1978

2. Investment in Rental Housing

During the year ended March 31, 1978, the Corporation acquired from the Housing Fund of British Columbia additional property interests amounting to \$6,798,522. One fractional interest in a National Housing Act section 40 project, amounting to \$633,113, was returned to the Housing Fund to facilitate the sale of the whole project to an outside buyer. In addition, costs are being accumulated in the Housing Fund covering the 25% Provincial interest in 13 Federal/Provincial partnership section 40 rental projects which are in process, all of which the Corporation proposes to acquire on completion. At March 31, 1978 these interim costs had amounted to \$6,798,597.

As of March 31, 1978 the official transfer of land titles for all properties from the Province of British Columbia to the Provincial Rental Housing Corporation had not been legally effected. It is the expressed intention of both the Province and the Corporation that legal transfer of land titles for all rental properties shown in the accompanying financial statements take place as soon as possible. The cost to the Corporation of rental properties in which legal transfer of land title had not taken place at March 31, 1978 were:

| | |
|--|---------------|
| Properties eligible for federal loans | \$ 826,300 |
| Properties wholly funded by the Province | 4,308,684 |
| Provincial share of joint Federal/ Provincial ownership | 17,898,318 |
| | <hr/> |
| | \$ 23,033,302 |
| | <hr/> |

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1978

3. Amortization Revenue in Advance of Official Recognition

Due to long delays in obtaining official recognition by Central Mortgage and Housing Corporation that certain jointly owned Federal/Provincial projects had been completed, the British Columbia Housing Management Commission, on behalf of the partners, charged amortization to these projects on an estimated basis for the interval between the date that the projects were physically completed and the date of official recognition. As a result the Corporation recorded the following amounts of amortization revenue in addition to that which would have been recorded had the terms of the relevant Federal/Provincial agreements been strictly adhered to:

| | |
|-------------|--------------|
| 1978 | \$ 312,132 |
| 1977 | 208,791 |
| Prior years | 2,025,366 |
| | <hr/> |
| | \$ 2,546,289 |
| | <hr/> |

As of March 31, 1978 there were 12 projects which had been physically completed and for which amortization revenue had been recognized, but for which agreement had not yet been reached as to their official completion dates.

4. Long-Term Debt

Some of the Corporation's projects were eligible for loans under section 43 of the National Housing Act, and loans totalling \$47,837,895 were outstanding as at March 31, 1978, as outlined in Schedule I. These loans are secured by mortgage debentures providing specific charges against the relevant properties, but the debentures have not been registered in the Land Registry, by agreement between the parties to use a non-registerable document. Repayment of principal and interest is generally amortized over a period of 48 to 50 years. Repayment of these debts may extend to the year 2027.

PROVINCIAL RENTAL HOUSING CORPORATION

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1978

5. Accounts Receivable

(a) Amortization Receipts

British Columbia Housing Management Commission, from which source the Corporation receives its annual usage charges (amortization receipts) is dependent on subsidy payments from Provincial and Federal authorities for funds to meet such obligations. Subsidy claims to the Federal authority for calendar years 1974 through 1977 have been the subject of extensive discussions and investigations, resulting in substantial delays in payment. As at March 31, 1978 there was \$6,627,108 due to the Corporation from the Commission.

(b) Due from Central Mortgage and Housing Corporation

During the 1978 fiscal year an agreement was reached under which interest on loans would run only from the date on which loan proceeds were received, but the necessary recalculation of first year loan repayments had not been made by the lender by the time annual instalments were due on January 1, 1978. As a result the Corporation considered it prudent to make payments according to the various existing loan repayment schedules and to request payment on any excess interest. Total loan interest paid on January 1, 1978 amounted to \$4,168,079, of which \$325,184 represented the excess, and this amount was received by the Corporation subsequent to March 31, 1978.

6. Subsequent Adjustments to Returns of Prior Years

1978 adjustments made in respect of prior years were as follows:

| | |
|--------------------------------------|-----------------|
| 1977 and prior amortization receipts | \$ 706,445 |
| 1977 interest expense | (698,555) |
| | <u>\$ 7,890</u> |

AUDITORS' REPORT

To the Shareholder of
T. S. Holdings Ltd.:

We have examined the consolidated balance sheet of T. S. Holdings Ltd. as at March 31, 1978 and the consolidated statements of income and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

T. S. HOLDINGS LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1978

1. Accounting policies:

(a) Principles of consolidation-

These consolidated financial statements include the accounts of the following wholly-owned subsidiary companies:

V I T Holdings Ltd.
Thompson-Okanagan Transit Ltd.
Vancouver Island Transit Ltd.

V I T Holdings Ltd., either directly or through a subsidiary, owns 98.5% of the following companies:

Vancouver Island Transportation Company Limited
Vancouver Island Coach Lines Limited
Gray Line & Empress Taxi & Sightseeing
Company Limited
Imperial Charter Service Company Limited
British Columbia Parlour Car Tours Limited

(b) Fixed assets-

Fixed assets acquired through the acquisition of shares of subsidiaries are stated at fair value determined at the date of acquisitions. Other fixed assets are stated at cost.

The cost of maintenance, repairs and minor renewals or replacements of property and equipment are charged to operating and maintenance expense. The costs of major replacements, extensions and betterments are capitalized in the property and equipment accounts. Upon retirement or disposal of such assets the costs thereof and the related accumulated depreciation or amortization are eliminated from the accounts and any gains or losses are reflected in the consolidated statement of income and deficit.

Notes
Page 2

Depreciation is provided on a straight-line basis at the following rates:

| | |
|--------------------------------|-------------------|
| Office furniture and equipment | 7-1/2% |
| Buildings | 1-1/2% and 1-7/8% |
| Automotive equipment | 7% |

Leasehold improvements are amortized at rates related to the term of the leases.

All buses operated by Vancouver Island Transit Ltd. and Thompson-Okanagan Transit Ltd. are leased to these subsidiaries by the Ministry of Municipal Affairs and Housing of the Province of British Columbia at an annual cost of \$1; the subsidiaries being responsible for all operating, repair and maintenance costs.

(c) Goodwill-

Goodwill in the amount of \$899,916, being the excess of the purchase price over the net fair value of identifiable assets at the date of acquisition of subsidiaries by T. S. Holdings Ltd., is being amortized on a straight-line basis over 40 years by an annual charge of \$22,498.

(d) Income taxes-

As a Crown Corporation of the Province of British Columbia the company and its wholly-owned subsidiaries are exempt from income taxes. However, Vancouver Island Transportation Company Limited (a 98.5% owned operating company), is subject to income taxes and accordingly follows the tax allocation basis of accounting for income taxes. The deferred income taxes of \$272,400 as shown in the balance sheet result principally from depreciation claimed for income tax purposes in excess of depreciation recorded for accounting purposes.

V I T Holdings Ltd. (a wholly-owned subsidiary) is endeavouring to acquire the remaining minority shares of its subsidiary, Vancouver Island Transportation Company Limited. Inasmuch as the subsidiary

would no longer be subject to income taxes if it were wholly-owned, the balance of deferred income taxes may never become payable.

2. Fixed assets:

| | March 31 | |
|--|--------------------|--------------------|
| | 1978 | 1977 |
| Land | \$ 656,978 | \$ 521,350 |
| Buildings | 41,172 | 41,172 |
| Equipment and furniture | 68,765 | 59,815 |
| Automotive | 2,593,503 | 2,653,794 |
| Leasehold improvements | <u>36,017</u> | <u>23,599</u> |
| | <u>3,396,435</u> | <u>3,299,730</u> |
| Accumulated depreciation and amortization: | | |
| Buildings | 4,018 | 3,068 |
| Equipment and furniture | 19,775 | 13,974 |
| Automotive | 791,543 | 606,212 |
| Leasehold improvements | <u>21,062</u> | <u>17,186</u> |
| | <u>836,398</u> | <u>640,440</u> |
| Net book value | <u>\$2,560,037</u> | <u>\$2,659,290</u> |

3. Due to Provincial Transit Fund:

There are no specific terms for repayment of the amount due to Provincial Transit Fund and no interest is charged thereon.

4. Long-term debt:

The indebtedness consists of a bank demand loan, at prime interest rate, repayable by arrangement with the bank in monthly instalments of \$3,000. The bank loan is secured by a guarantee in the form of a letter of comfort to the bank given by the Ministry of Municipal Affairs and Housing of the Province of British Columbia.

5. Anti-Inflation Programme:

The company is subject to, and believes it has complied with, controls on prices, profits and compensation under the federal government's anti-inflation programme.

Notes
Page 4

6. Pension plan:

With respect to the retirement plan introduced for its employees by a subsidiary, Vancouver Island Transportation Company Limited, an actuarial valuation established that the principal amount of the unfunded liability for past service benefits amounted to \$1,704,850 as at September 1, 1976. The company is absorbing this unfunded liability, together with interest thereon at 6% per annum, over a period of 25 years by annual payments of \$133,369. The first payment was made during the current year.

7. Subsidies:

| | <u>Year ended March 31</u> | |
|--|----------------------------|-------------|
| | <u>1978</u> | <u>1977</u> |

From the Province of British Columbia:

| | | |
|---|----------------|----------------|
| Vancouver Island Transportation Company Limited | \$1,560,340 | \$1,060,000 |
| Vancouver Island Transit Ltd. | 425,000 | 274,350 |
| Thompson-Okanagan Transit Ltd. | <u>335,147</u> | <u>153,772</u> |
| | 2,320,487 | 1,488,122 |

From the City of Kamloops:

| | | |
|--------------------------------|--------------------|--------------------|
| Thompson-Okanagan Transit Ltd. | <u>335,147</u> | <u>153,772</u> |
| | <u>\$2,655,634</u> | <u>\$1,641,894</u> |

By arrangement, operating deficits incurred by Thompson-Okanagan Transit Ltd. are subsidized equally by the Province of British Columbia and the City of Kamloops.

8. Contingent liability:

On September 3, 1977 a coach, the property of Vancouver Island Transportation Company Limited, was involved in a collision with two other vehicles on Vancouver Island, responsibility for which the company denies. The management and legal counsel for Vancouver Island Transportation Company Limited are of the opinion that any possible loss from claims or possible claims arising from this matter should not exceed the limits of the total of the company's third party liability insurance coverage.

VANCOUVER RESOURCES BOARD

AUDITOR'S REPORT

To the Honourable Minister of Human Resources,
Province of British Columbia
and Vancouver Resources Board

I have examined the balance sheet of the Vancouver Resources Board as at December 31, 1977 and the statement of operations for the nine month period then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at December 31, 1977 and the results of its operations for the nine month period then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

As explained in Note 1, the Vancouver Resources Board was integrated into the Ministry of Human Resources on January 1, 1978.

VANCOUVER RESOURCES BOARD
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Status of the Board

The Vancouver Resources Board was established in 1974 by the Community Resources Boards Act.

On October 5, 1977 the Community Resources Boards Amendment Act, 1977 was proclaimed. This Act provides for the full integration of the Vancouver Resources Board into the Ministry of Human Resources. In accordance with the provisions of the Act all assets and liabilities, rights and obligations reverted to the Province on January 1, 1978.

2. Significant Accounting Policies

a) Basis of reporting

The balance sheet and statement of operations show all assets and liabilities, revenues and expenditures of the Board including those relating to trust funds. However, they do not include transactions undertaken on behalf of, and in the name of, the Province of British Columbia. These are disclosed separately in the notes.

b) Fixed assets

For record purposes only, fixed assets are shown at a nominal value of \$1. All expenditures for furniture and equipment and automobiles are charged to operations during the period in which they are incurred. This policy conforms with the reporting requirements of the Ministry of Human Resources. The cumulative cost of fixed assets which have been charged to operations is as follows:

| | <u>December 31, 1977</u> | <u>March 31, 1977</u> |
|-------------------------|--------------------------|-----------------------|
| Furniture and equipment | \$ 621,394 | \$ 537,428 |
| Automobiles | <u>170,384</u> | <u>89,101</u> |
| | \$ 791,778 | \$ 626,529 |
| | ===== | ===== |

c) Non-owned fixed assets

Since 1975 the Board has managed, on behalf of the Province of British Columbia, certain fixed assets originally owned by predecessor organizations. These assets, which are shown below at original cost, have been used in the Board's operations but are not reflected on the balance sheet.

| | <u>December 31, 1977</u> | <u>March 31, 1977</u> |
|-------------------------|--------------------------|-----------------------|
| Land | \$ 252,375 | \$ 252,375 |
| Buildings | 698,823 | 698,823 |
| Furniture and equipment | <u>298,863</u> | <u>298,863</u> |
| | \$ 1,250,061 | \$ 1,250,061 |
| | ===== | ===== |

d) Non-owned investments

The Board has been administering, on behalf of the Province of British Columbia, certain investments which were valued at \$190,986 as at March 31, 1977. These investments were realized during the period and the proceeds of realization, together with any income earned, were remitted to the Province.

3. Payments on Behalf of the Province of British Columbia

During the period the Board processed, on behalf of the Ministry of Human Resources, income assistance payments to recipients living outside the City of Vancouver. These payments, which totalled \$14,611,880, were made from funds provided by the Province of British Columbia and are not included in the statement of operations.

4. Contracts and Commitments

a) Contracts

The Board has entered into a number of contracts which provide for shelter, education and counselling of children in its care. The current contracts expire on March 31, 1978 and require payments after December 31, 1977 of approximately \$400,000.

b) Commitments

The Board leases office accommodation and automobiles under formal agreements with varying expiry dates to 1987. The total commitment on these leases is \$2,974,000 with approximately \$750,000 due in 1978.

5. Liabilities for Employee Benefits

As at December 31, 1977, the Vancouver Resources Board was liable for vacation pay, sick leave credits, pension plan contributions, etc. Since the Province of British Columbia had formally agreed to assume these liabilities on January 1, 1978, these amounts are not included in these financial statements.

6. Contingent Liability

On July 19, 1976 an action in the Supreme Court of British Columbia was brought against the Board and five other parties, relating to an incident which occurred in 1975. As a result of this incident, the Board's insurance company has denied liability to the Board under the applicable insurance policy. The Board's legal counsel estimates the financial involvement, if any, with respect to this action, would not be likely to exceed \$400,000.

WORKERS' COMPENSATION BOARD OF BRITISH COLUMBIA

- 62 -

Province of
British Columbia

Office of the
Auditor General
Province of British Columbia

1st Floor
737 Courtney Street
Victoria, B.C.
V8V 1X4

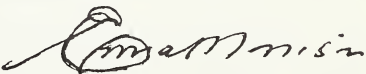

TO THE MEMBERS OF THE BOARD:

I have examined the balance sheet of the Workers' Compensation Board of British Columbia as at 31 December 1977 and the condensed statement of class and fund transactions for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

I have relied upon the report of the Board's Consulting Actuary for the estimated liabilities for unfinalled claims and pensions and for assurance that the Board's 1978 assessment rates include adequate provision to commence collection of the class balances to be recovered from future assessments, in accordance with the Board's nine year funding plan.

In my opinion, these financial statements present fairly the financial position of the Board as at 31 December 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles which, except for the changes in accounting policies which resulted in an additional requirement of \$227,204,000 to meet actuarial estimates of liabilities, as referred to in note 1A to the financial statements, have been applied on a basis consistent with that of the preceding year.

The financial statements for the year ended 31 December 1976 were reported on by the Acting Comptroller-General of the Province of British Columbia.

(Mrs.) Erma Morrison, C.A.
Auditor General

Victoria, British Columbia

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1977

NOTE 1 - Accounting Policies

(a) Fund Accounting

Although the liabilities and reserves of the Board are allocated to the Accident and Silicosis Funds and various subdivisions thereof, the assets are accounted for on a pool basis with no allocation of individual assets to specific funds.

(b) Income Accrual

Assessments and interest income are recorded on an accrual basis.

(c) Income and Expense Allocation

Each Sub-class is credited with its share of assessment income and charged with its share of the following expenses:

- (i) wage loss compensation and medical aid costs paid during the year for injuries occurring in the year;
- (ii) the capitalized value of pensions awarded during the year for injuries occurring in the year;
- (iii) wage loss compensation and medical aid costs paid during the year and the capitalized value of pensions awarded during the year for Silicosis claims allowed in the year;

- 66 -

- (iv) a provision for future wage loss compensation, medical aid and pension awards for injuries occurring during the year;
- (v) a provision for future wage loss compensation, medical aid and pension awards for Silicosis claims allowed during the year;
- (vi) any subsequent costs in excess of the provisions in (iv) and (v) paid or incurred during the year;
- (vii) operating expenses paid or incurred during the year.

The Sub-classes are also credited or charged with interest as explained in Note 1(j).

(d) Fixed Assets

Fixed assets are recorded at cost, except for buildings acquired before 1970 which are recorded at appraised value. They are depreciated on a straight-line basis over their estimated useful lives as follows:

| | |
|-------------------|----------------|
| Buildings | 20 or 40 years |
| Equipment | 7 or 10 years |
| Furniture | 10 years |
| Automobiles | 3 years |

Leasehold improvements are amortized over the period of the leases.

(e) Investments

Investments are valued at amortized cost. The method of amortization is based on the yield at the date of purchase. The Workers' Compensation Act requires that investments be restricted to bonds of, or guaranteed by, Canada or any Province in Canada, and that they be made in the names of the Board and the Minister of Finance jointly.

(f) Unfinalled Claims

Provisions for future claims costs (Notes 1(c)(iv) and (v)) are carried to Unfinalled Claims reserves, which are part of the Accident and Silicosis Funds, established under Sections 37(1)(c) and 39(2)(b) of the Workers' Compensation Act. Wage Loss compensation and Medical Aid paid and the capitalized values of pensions awarded after the year of accident (or after the year that the claim is allowed in respect of Silicosis) are charged to the respective reserves up to the level of the provision made. Any subsequent costs in excess of the provision are charged to the Sub-classes on a current basis.

(g) Pensions

Capitalized values of pensions awarded are carried to the pension reserves, which are credited with their share of interest income and charged with pensions paid. When a pension is awarded its capitalized value is charged to the appropriate Sub-class, except in the case of a pension awarded from the Accident or Silicosis Fund after the year of the accident (or the year of claim allowance in the case of Silicosis) when it is charged to the appropriate Unfinalled Claims reserve.

- 68 -

(h) Deposit Classes

Certain employers have been placed by the Board in the self-insuring or deposit classes. These employers are required to deposit with the Board a sum of money determined by the Board and are then billed on a monthly basis for compensation payments and pension awards made on their behalf together with their proportionate share of administrative costs.

Under this system the deposit class employers have not been providing capitalized reserves for unfinalled claims in their classes. The Board's practice with regard to deposit account employers will be examined during 1978 including the question of funding for unfinalled claims. See Note 3.

The Board also acts as the agent of the Government of Canada for the payment of compensation to federal employees in British Columbia. Amounts disbursed are recovered from the Government of Canada on a monthly basis.

(i) Assessment Income and Assessments Not Yet Remitted

As a significant portion of assessment income for the year is not received until after year end, the amount shown is an estimate based on statistical data. Adjustments to this estimate are made in the following year and are shown separately in the Condensed Statement of Class and Fund Transactions.

"Assessments not yet remitted" is the amount receivable after deducting assessments received during the year from the total estimated assessment income for the year.

(j) Interest Income

Interest is credited or charged to the Sub-classes and the Unfinalled Claims reserves on the mean of their opening and closing balances at the rate of 6% per annum. The deposit accounts are credited or charged on their actual monthly balances. The remaining balance in the interest account is credited to the Pension reserves. The interest rate credit and charge will be reviewed during 1978.

(k) Actuarial Liabilities

The actuarial liabilities for Unfinalled Claims and Pensions are calculated by the Board in accordance with assumptions and methods approved by the Consulting Actuary appointed by the Board. His report is appended to these accounts.

(l) Doubtful Accounts

No provision is made for doubtful accounts. These accounts are written off when they are determined to be uncollectible. See Note 6.

- 70 -

NOTE 1A - Changes in Accounting Policies

During the year the Board made changes in its accounting and actuarial policies which are reflected in the financial statements. The policies in effect on December 31, 1977 are set out in Note 1.

The major changes in accounting policy are:

- (a) The Accident and Silicosis Funds reported in the 1976 Balance Sheet did not reflect actuarial liabilities: those appeared in the footnotes. At December 31, 1977 the Funds were increased by \$227,204,000 to reflect the difference between funds previously provided to meet future liabilities and the actuarial evaluation of these liabilities as at December 31, 1977 (Note 2). This "Additional Requirement" has been charged to the Sub-classes and the total of negative balances of \$189,303,000 appears on the Balance Sheet as: "Class balances to be recovered from future assessments". It is the Board's objective to fund this figure over a nine year period. It should be noted that some Sub-classes may be funded earlier and some later than the nine year overall plan.

It is not the Board's intention to automatically revalue the Funds each year according to future actuarial estimates of the Board's liabilities, as these estimates serve only as a test of the Funds' adequacy. Accordingly, the Funds will only be revalued in the future when, in the Board's opinion, a material difference has arisen.

- 71 -

- (b) The Medical Aid component of compensation costs was accounted for on a cash basis in prior years. This was changed in 1977 to reflect payments made during the year for current year injuries plus a provision for unfinalled claims. Medical Aid is now accounted for on the same basis as Wage Loss compensation. The future liability in respect of prior year claims, which amounted to \$63,350,000, is included in the Additional Requirement charge noted in (a) above. This figure of \$63,350,000 refers only to the Accident Fund.
- (c) An Unfinalled Claims Fund for future benefits not yet awarded in respect of Silicosis pensions awarded to date has been established. Accounting policy is now on a basis similar to that for unfinalled claims in the Accident Fund. Previous policy recognized future benefits only when the claim was allowed. The future liability in respect of prior year claims amounted to \$3,208,000 and is included in the Additional Requirement charge noted in (a) above. The Medical Aid component of the \$3,208,000 is \$507,000.
- (d) The costs arising from the 1974 amendments to the Workers' Compensation Act are no longer accounted for on a cash basis. The capitalized cost resulting from these amendments, which amounted to \$23,719,000, has been charged to the Classes as an Additional Requirement and credited to the Pension Reserves.
- (e) Certain actuarial assumptions and methods have been changed with regard to Unfinalled Claims thus affecting the comparability of the actuarial estimates. Also recognized in the current year are increases in pensions effective on January 1 of the following year as a result of increases in the Consumer Price Index prior to year end.

- 72 -

NOTE 2 - Actuarial Liabilities

Under the provisions of the Workers' Compensation Act, the Board is required to provide capitalized reserves sufficient to meet the periodical payments of compensation accruing in future years in respect of all injuries occurring during the year under the Accident Fund and all claims allowed during the year under the Silicosis Fund. These provisions are included in the Unfinalled Claims reserves (Note 1(f)) and 5) and the Pension reserves (Note 1(g)).

For a variety of reasons, previous provisions have proved to be insufficient and, at December 31, 1977, actuarial liabilities exceeded the reserves which had previously been provided by \$227,204,000. This Additional Requirement has been charged to the Classes as described in Note 1A. The breakdown of the Additional Requirement is as follows (000's).

Accident Fund

| | |
|-------------------|-----------|
| Unfinalled Claims | \$133,673 |
| Pensions | 85,671 |

Silicosis Fund

| | |
|-------------------|--------------|
| Unfinalled Claims | 3,872 |
| Pensions | <u>3,988</u> |

| | |
|--|-------------------------|
| Additional Requirement charged to Classes and credited to above Funds | <u><u>\$227,204</u></u> |
|--|-------------------------|

Fund balances were reported in the 1976 Balance Sheet and actuarial liabilities appeared in the footnotes. On the basis of these footnotes the Additional Requirement for the above Funds at December 31, 1976 was \$170,483,000, excepting Deposit Accounts (Note 3).

- 73 -

The 1976 unaudited comparison on the Balance Sheet, which is included for information purposes only, presents the accounts as if the Funds had been revalued at that time according to the same actuarial methods utilized in the current year. The Additional Requirement for the above Funds on this basis was \$222,189,000 which provides a direct comparison to December 31, 1977.

This comparison has not been audited and the actuarial liabilities have not been confirmed by the Consulting Actuary.

NOTE 3 - Deposit Accounts: Additional Costs of Compensation

In future years the Board will be required to make compensation payments on claims relating to the Deposit Accounts (Note 1(h)) in respect of accidents which occurred before December 31, 1977. Under the accounting policies hitherto adopted by the Board, those payments were not recognized in the accounts until the year of payment or award. The current value of those future payments at December 31, 1977 are estimated by the Board, in consultation with the Consulting Actuary, to be \$18,633,000 (1976: \$14,500,000).

At December 31, 1977, the Deposit Accounts were charged with \$5,711,000. This charge represents their share of Additional Requirements in respect to Pension reserves. As the respective accounts will be billed with the charge effective December 31, 1977 it is included in "Assessments not yet remitted" on the Balance Sheet and in Deposit Account income in the Condensed Statement of Class and Fund Transactions.

- 74 -

NOTE 4 - Fixed Assets (000's)

| | Cost or Appraised Value | 1977 Depreciation | Accumulated Depreciation | Net Book Value | Net Book Value 1976 |
|--|-------------------------------|----------------------|-----------------------------|-------------------|---------------------------|
| Land | \$ 1,189 | \$ - | \$ - | \$ 1,189 | \$ 1,189 |
| Buildings | 26,535 | 645 | 2,056 | 24,479 | 22,403 |
| Furniture, equipment and leasehold improvements | 6,063 | 741 | 3,230 | 2,833 | 2,786 |
| | \$33,787 | \$1,386 | \$5,286 | \$28,501 | \$26,378 |

Buildings acquired before 1970 were appraised at depreciated replacement cost by Universal Appraisal Co. Ltd. on August 3, 1975.

The Richmond land and building acquired at a cost of \$725,000 in 1976 and discussed in the notes to the 1976 statements has still not been fully utilized and a decision on its eventual use has still not been made.

Prior to year end the physical rehabilitation staff located in the clinic at 657 West 37th Avenue, Vancouver were transferred to new facilities in Richmond. The property on West 37th Avenue is now partially utilized as office space. It is the long term objective of the Board to sell both this property and that at 5255 Heather Street, Vancouver and to relocate all administrative personnel at new premises to be constructed adjacent to its Richmond property.

- 75 -

NOTE 5 - Provision for Unfinalled Claims

This provision, made by the Board in consultation with the Consulting Actuary, is an estimate of the amount required to meet the future claims costs of 1977 accidents, and the future costs of Silicosis claims allowed in 1977, in all except the Deposit classes. The aggregate provision made in 1977 is \$69,995,000 which has been allocated to the Sub-classes on the basis of their individual experience. Of the provision \$56,700,000 was for wage loss and pension awards (1976: \$67,289,000) and the balance of \$13,295,000 for Medical Aid. There was no provision for Medical Aid in 1976 (Note 1A(b)). The reduction in the wage loss provision is due, in part, to changed actuarial assumptions.

NOTE 6 - Bad Debts

Accounts totalling \$1,011,000 which the Board deemed to be uncollectible were written off during the year.

- 76 -

NOTE 7 - Lease Commitments

The Board has the following commitments for annual rentals on leased property:

| | |
|------------|------------------|
| 1978 | \$437,000 |
| 1979 | 293,000 |
| 1980 | 101,000 |
| 1981 | 8,000 |
| 1982 | - |
| | <u>\$839,000</u> |

The total rental expense under these leases in 1977 was \$503,000 (1976: \$534,000).

NOTE 8 - Litigation

Claims totalling \$783,000 were made against the Board in 1975 and 1976 for which litigation is currently in progress. In the opinion of the Board's Executive Director, Legal Services liability in these matters is unlikely to exceed \$200,000. This amount is not included in these statements.

- 77 -

NOTE 9 - Superannuation Fund

The cost to the Board of matching employees' compulsory contributions to the Workers' Compensation Board Superannuation Fund for 1977 was \$1,253,000 (1976: \$1,116,000). An actuarial valuation of the Fund's liabilities was recently carried out under the direction of the Superannuation Branch of the Ministry of the Provincial Secretary.

On the assumption that no changes are made in the current level of employee and matching employer contributions and ignoring liabilities and financing for indexed supplemental pensions, the plan's unfunded liability as of March 31, 1977 was about \$4,477,000. This unfunded liability is not included in these statements.

NOTE 10 - Unrecorded Liabilities

Employees are entitled to sick leave of one and one half days for each completed month of service minus any period during which sick leave benefits have been paid. An employee who leaves the service of the Board for any reason is entitled to 50% of accumulated sick leave credits in cash or, in the case of a retiring employee, an equivalent value in time. The Board's liability at December 31, 1977 is estimated to be \$3,022,000.

On January 13, 1978 a new collective agreement was approved by the Board and the Workers' Compensation Board Employees Union. This agreement provided for salary increases retroactive to October 1, 1977. At December 31, 1977 the Board's liability for retroactive pay amounted to \$256,000. This amount has since been paid.

- 78 -

ACTUARY'S REPORT

The Accident and Silicosis Fund Liabilities included in this report have been computed by the Board in accordance with methods and assumptions approved by us.

The Accident and Silicosis Fund Pension Liabilities are for pensions in effect as at December 31, 1977, but excluding pensions arising from injuries to Federal Government workers (Class 19). The present value of increases in pensions effective January 1, 1978 has been provided for in the Liabilities. Similar recognition was not accorded increases in pensions effective January 1, 1977 in the Pension Liabilities as at December 31, 1976. The Pension Liabilities have been computed using the same mortality, remarriage, net interest rate and other assumptions used for the valuation as at December 31, 1976. The net interest rate of 2 3/8% makes implicit provision for the future indexing of pensions on the assumption that interest earnings on Board assets in excess of 2 3/8% will correspond to future increases in the Consumer Price Index.

The Accident and Silicosis Unfinalled Claims Fund Liabilities are for rateable Classes only and are based on projections of future claims payments and awards using ratios developed from the Board's claims experience, average benefit rates, the net interest rate assumption of 2 3/8% and where applicable mortality, remarriage and other assumptions used for computing Pension Liabilities. Significant increases in the Unfinalled Claims Liabilities as at December 31, 1977 have arisen mainly as a result of the inclusion in these Liabilities of the present value of future medical aid payments and from changes in actuarial methods and assumptions.

We have examined the bases used in the development of the Board's 1978 assessment rates. If future Board costs are maintained at the percentages of payroll experienced in 1976 and 1977 and future Consumer Price Index related increases in benefits are not greater than the increases granted in these years, it is our opinion that the 1978 assessment rates in aggregate are adequate to provide for currently accruing costs and the annual amounts required to amortize over a nine year period the unfunded liabilities as at December 31, 1977.

- 79 -

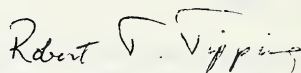

In our opinion, the amounts set out below which have been determined by the methods and assumptions described above make reasonable provision for the future liabilities of the Board as at December 31, 1977 subject to the Board levying assessments in future years sufficient to provide for any Consumer Price Index related increases in benefits that are greater than that which can be provided from interest earned on the Board assets in excess of the valuation net interest rate of 2 3/8%.

Accident Fund

| | |
|-------------------------------|----------------------|
| Pension Liabilities | \$432,352,000 |
| Unfinalled Claims Liabilities | <u>274,165,000</u> |
| | <u>\$706,517,000</u> |

Silicosis Fund

| | |
|-------------------------------|----------------------|
| Pension Liabilities | \$ 12,227,000 |
| Unfinalled Claims Liabilities | <u>3,382,000</u> |
| | <u>\$ 15,609,000</u> |
